Ohio Candidates Campaign Hard For Primaries

Would-Be Governor Blames Race Incident On 'One-Party' Rule

By THE ASSOCIATED PRESS

With only a few days remaining before the May 8 Ohio primaries, campaign activity continued heavy last night.

Here is what candidates said in speeches around the state:

In Cleveland, Robert W. Reider, candidate for the Democratic nomination for governor, blamed the segregation incident in Hillsboro on "one-party" rule in Ohio.

In Cincinnati, Oscar L. Fleckner, another candidate for the Democratic gubernatorial bid, opposed lowering teacher standards despite teacher shortages.

In Canton, C. William O'Neill, opposing Lt. Gov. John W. Brown for the Republican nomination for governor, said Ohio has the money to start solving its education, highway and welfare problems.

In Caldwell, Brown defended the record of the Republican majority of the last session of the General Assembly.

* * *

IN HIRAM, Michael V. DiSalle, a third candidate for the Democratic gubernatorial nomination, accused the Eisenhower administration of hurting the farmer and small businessman and bungling foreign policy.

And in Youngstown, William Saxbe, Republican candidate for attorney general, said the average citizen has grown to fear rather than respect government.

Reider, Port Clinton publisher, told a Reider rally that "as a citizen I am ashamed of Hillsboro."

Referring to a recent dispute in Hillsboro over admitting 24 Negro children immediately to a predominantly white school, Reider said the basic reason for the incident was "the existence of a one-party system" in Ohio.

"For a decade," said Reider, "there has been no voice to speak for the humble and oppressed. There has been no aggressive opposition to the forces of bigotry which are in control.

The continued domination of Ohio by the Republican party is an absolute menace to all our freedoms."

Fleckner, Columbus businessman and former state liquor director, said that the state's teach-

Navy Rocket Fizzles On Altitude Test

WHITE SAND, N. M. (AP)—Disappointed Navy scientists, despite a fizzle on their initial try, are planning another attempt at a rocket altitude record next week.

The first production model of the Aerobee-hi plunged to earth in the southern New Mexico desert yesterday after its main motors failed to fire.

The booster mechanism blasted the research vehicle to only 18,000 feet before it turned its nose down and hit the ground just a mile from the launching tower.

The Navy had hoped to set an altitude record for a single stage rocket of 185 miles.

John W. Townsend, Naval Research Laboratory scientists in charge of the launching, said pending analysis of yesterday's failure, the Navy still plans to fire an identical rocket here next Tuesday.

He indicated that next week's shot might lose its connection with the earth satellite program. He said he will consider removing from the rocket's instrument layout a preliminary version of the so-called Mini-track transmitter which will be used in radio tracking of the satellite when it is launched during the International Geophysical Year starting in 1957.

The scientists said he may consider removing other instruments to "get all there is to get" out of the firing.

$11½ Billion Aid Fund Is Expected

WASHINGTON (AP) — Sen. Byrd (D-Va) said today $11 billion will be available for foreign aid spending in the new financial year if Congress approved the full $4.9 billion asked by President Eisenhower.

Byrd said there will be $6.6 billion of unexpended foreign aid balances on hand at the start of the new bookkeeping year July 1. Byrd is chairman of the Senate-House Watchdog Committee on federal spending.

The administration has said it wants bigger appropriations this session than it got last year because of a need to build up a reserve.

Marines Select New 'Boot' Boss

Hero Of Tarawa, General Shoup, Gets Nod To Head Recruit Setup

WASHINGTON (AP)—The Marines have picked as new boss of their recruit training a hero of bloody Tarawa, Maj. Gen. David M. Shoup. His job will be to make boys into Marines without endangering their lives.

He also will have the job of curbing some of the old disciplinary practices of the Marines' non-commissioned officer drill instructors without undermining their authority or wrecking their morale.

Shoup's appointment as inspector general of recruiting was announced by Gen. Randolph Pate, Marine commandant, in the aftermath of an investigation into the April 8 fatal march at Parris Island, S. C.

In that march, six "boots," as the Corps calls the untrained, were drowned. Their platoon had been ordered into a tide-swept creek by a drill instructor "to teach them discipline."

Shoup is a tough man. On occasion, the full-necked product of a farm near Battle Ground, Ind., has been known to use language which any old salt could admire.

* * *

THE 52-YEAR-OLD graduate of DePauw University (he went to school on a scholarship and was an A student) is also a fighting man.

As much as any man he has been credited with the U. S. victory at Tarawa. After those bloody 72 hours in November 1943 in which the Marines suffered 3,166 casualties, Shoup was awarded the Medal of Honor.

After the initial assault wave hit the beach they were clobbered. Some units had 70 per cent casualties.

Offshore in a landing craft, Shoup ordered his reserves into the desperate fight and then led them in the sweep inland. By nightfall he had set up his command post 15 yards from the water.

As the senior officer ashore, Shoup, who had received a field promotion to colonel only a couple of days before, directed the entire operation.

"By his brilliant leadership, daring tactics and selfless devotion to duty," the citation read, "Col. Shoup was largely responsible for the final, decisive defeat of the enemy."

In World War II Shoup also collected two Legions of Merit, a commendation ribbon and assorted campaign ribbons for service in the Guadalcanal, Saipan and Tinian operations in the Pacific.

Shoup signed up for the Marines in 1926, underwent training as a second lieutenant and subsequently served in China and at sea.

The new recruit chief is answerable directly to Pate.

High Court Jurist Gets Pair's Appeal

PROVIDENCE, R. I. (AP) — Mr. and Mrs. Samuel Sklaroff have made a desperate appeal to Justice Felix Frankfurter of the U. S. Supreme Court.

They want him to stay a court order that would require them to return a 4-year-old boy they've raised from infancy to his natural parents by Saturday.

The Rhode Island Supreme Court ordered the transfer. Immediately afterward, the Sklaroff's attorney filed the appeal to Frankfurter in the latest move in a 30-month custody battle.

The youngster has been living with the Sklaroffs since he was 3 days old. His natural parents, Mr. and Mrs. James Skeadas, are Roman Catholic and the Sklaroffs Jewish, but the religious difference is not an issue in the case.

Yesterday, for the first time, little Freddie saw his natural parents, as he sat with his foster parents in the courtroom. For the Skeadases the sight of the boy undoubtedly brought back memories of the night when Freddie was exchanged between automobiles parked on a Lynn street.

Two years after that transfer, the Sklaroffs sought in Juvenile Court to adopt him. But Mrs. Skeadas, who was unmarried at the time of the birth but later married Skeadas, who claims to be the father, fought the adoption.

2 More Dayton Peddlers Jailed

HAMILTON (AP)—Two more men, arrested in a narcotics raid in Middletown Feb. 11, were sentenced here yesterday.

Judge P. P. Boli sentenced Harold H. Walter, 25, of Dayton to 2-15 years in Ohio Reformatory and fined him $5,000. He sentenced Clifford Byrd, 21, also of Dayton, to 2-15 years in the Ohio Penitentiary and fined him $2,000. Both men pleaded guilty to charges of possessing narcotics.

Commies In India Still Laud Stalin

MADRAS, India (AP) — India's Communist party will continue to regard Stalin as a hero, delegates to the party's annual congress at Palghat reported today.

"How can we join hands with Moscow leaders who throw mud on a great hero of the people because of personal animosity," delegates said.

Britain Opposes NATO Aid Idea

Political Activity OK, Dulles Is Told

PARIS (AP)—British sources said Britain told the United States today it opposes any extension of the North Atlantic Treaty Organization into the foreign aid field for the benefit of the world's undeveloped regions.

U. S. Secretary of State Dulles and British Foreign Secretary Selwyn Lloyd had a midday meeting and British informants said Lloyd told Dulles NATO members should push their aid programs through other institutions.

Suggested were the International Monetary Fund, the Colombo plan for Southeast Asia, or agencies of the United Nations.

West Germany had just agreed with a French plan for linking German reunification to progress in world disarmament which, in turn, would free large sums of capital for investment.

Lloyd and Dulles met for a long discussion of East - West relations and NATO's place in that picture.

* * *

LLOYD TOLD Dulles Britain is willing to expand consultative functions of NATO in the political field, but opposes the creation of a new organization to channel aid to underdeveloped nations. He said Britain also opposes using the NATO framework for sending aid to Asia and the Middle East.

In this, he was joining French Foreign Minister Christian Pineau, who said France opposes using such aid as a weapon in the cold war.

Dulles is to present his ideas to the full NATO Foreign Ministers' Council tomorrow.

4 Dayton Trade Unions Walk Out

DAYTON (AP) — Four AFL-CIO trade unions went on strike here yesterday after contract negotiations with local contractors broke down. The four unions involve asbestos, sheet metal, lath and roofing workers.

Fourteen other trade unions reached new two - year contract settlements which grant wage increases averaging 25 cents an hour. Present wage scales run from $2.95 an hour for sheet metal men to $3.47 an hour for masons.

Barkley's Body Is Returned Home

PADUCAH, Ky. (AP)—The body of Alben W. Barkley, elder statesman and master wit, arrived in Paducah today for burial.

The special 10-car train bearing the late Kentucky Democrat senator and former vice president arrived from Washington and funeral services were held in Broadway Methodist Church.

President Eisenhower and other associates and friends paid final tribute to the "Veep" at services in Washington yesterday.

Circleville Woman Heads Ohio Clubs

COLUMBUS (AP) — Mrs. Ray W. Davis of Circleville today was elected president of the Ohio Federation of Women's Clubs.

Other officers elected at the annual convention were Mrs. Carl A. Weinman, Steubenville, first vice president; Mrs. Harvey Johnson, Canton, second vice president; Mrs. Carl Ausenheimer, Columbus, treasurer and Mrs. Charles Troester, Sidney, recording secretary.

The officers will be installed at a banquet tonight.

Mideast Peace Accord Told By U.N. Aide

Hammarskjold Reports Israel, 4 Arab Nations Agree To Cease-Fire

UNITED NATIONS, N. Y. (AP)—U.N. Secretary General Dag Hammarskjold reported to the U. N. Security Council today he had achieved cease - fire agreements between Israel and four Arab neighbors — Egypt, Lebanon, Syria and Jordan.

In a "progress report" requested by the council, Hammarskjold said he had received assurances from the governments of Egypt and Israel not to engage in hostile activities except in defense.

He said he also had concluded "with positive result" the negotiations with the parties to the other three armistice agreements, specifically Syria, Lebanon and Jordan.

The report was received a day before the deadline set by the Security Council in ordering Hammarskjold to undertake his peace mission to the Middle East.

Hammarskjold is expected to return to New York this weekend and make a final report to the Council next week. Some diplomats said they believed he would be requested to go back in June and try to put the truce agreements on a more solid foundation.

* * *

"IN CARRYING out my mandate," Hammarskjold reported, "I have stayed strictly within the scope set by the Security Council resolution." The resolution requested Hammarskjold to survey the various aspects of enforcement and compliance with the armistice agreements between Israel and the four Arab states.

Hammarskjold said that he considered the resolution a mandate to negotiate for re-establishment of compliance with the pacts.

"I have considered the basic clauses of the general armistice agreements to be those which established a general cease - fire," Hammarskjold said.

The president of the Security Council, Ambassador Joza Brilej of Yugoslavia, circulated the report immediately to members of the Council for their considera-

Ohio Students Prefer Ike And Johnson

By THE ASSOCIATED PRESS

Student delegates at a mock Republican convention last night at Kenyon College "renominated" President Eisenhower while a mock Democratic convention at Hiram College nominated Sen. Lyndon Johnson of Texas for President.

For vice president, Kenyon students picked Gov. Christian Herter of Massachusetts. In Hiram, Democratic Gov. Edmund S. Muskie of Maine was the choice.

Six ballots were needed to nominate Johnson at Hiram. On the sixth ballot Johnson edged Gov. Frank J. Lausche of Ohio by 152-148. Adlai Stevenson showed early strength but faded in later polls while Sen. Estes Kefauver was never in the running.

In Kenyon, President Eisenhower was far out in front of second place Sen. Knowland of California, 123-91 at the end of the first ballot. A swing by the "California" and "Illinois" delegations at the end of the second ballot clinched his nomination.

Keynote speaker at Hiram was Michael V. DiSalle. Sen. George H. Bender was at Kenyon.

Methodists Closing Ranks Against Racial Segregation

MINNEAPOLIS (AP)—The world's largest Protestant denomination, the Methodist Church, today began closing ranks against racial segregation.

Delegates to the church's quadrennial general conference set forth a three-pronged program yesterday condemning segregation, making integration possible in the church structure and studying new ways of bringing Negro and white members of the congregation more closely together.

The conference sped through action opening the door to full integration in the church, urging abolition of discrimination or segregation and setting up a commission to study ways of developing "greater interracial brotherhood."

The conference's first action was to amend the church constitution to pave the way for all Negro church units to move into the regular organization framework.

The plan, which still must be ratified by two-thirds of the voting delegates in 132 conferences, permits individual Negro churches, or entire conferences of Negro churches, to transfer into regular "white" administrative units.

* * *

SUCH ACTION would be on a voluntary basis and could be undertaken by two-thirds vote of the regional groups involved.

The jurisdictional action by the conferences was hailed as a "miracle" by the Rev. C. Cooper Bell of Lynchburg, Va., and the "fastest and longest step" the church can now take to wipe out racial barriers by Leonard D. Slutz, a Cincinnati attorney, who presented the program.

Abolition of discrimination or segregation "by any method or practice, whether by conference or otherwise" and with reasonable speed was called for by the delegates in a resolution.

Offered as guidance, but not as a legally binding measure, the resolution called on Methodists to "actively work" to end racially discriminatory practices in their churches and community life.

The delegates voted overwhelmingly in favor of a plan to set up a commission that will undertake a four-year study of racial problems.

Coming as a supplementary move, the program for a 70-member lay-clergy group will serve to bring the results of a thorough study of the church's jurisdictional system back to the 1960 conference.

First H-Bomb Test Slated For Today

KWAJALEIN (AP)—The opening shot of the new series of nuclear tests, an explosion officially described as "in the kiloton range," is scheduled for today at Eniwetok atoll.

An Atomic Energy Commission spokesman said this opening shot would be followed later by a burst of a big multimillion-ton energy hydrogen bomb.

The first shot was scheduled for about 2 p. m. EST today. The weather, of course, will decide when the scheduled little kiloton fission bomb will be fired.

Ag Agency Gives Ohio Crop Data, Value Of Products Sold

COLUMBUS (AP) — Products sold by 177,074 farms in Ohio in 1954 had a value of $844,013,387.

The U. S. Department of Commerce reported that the figures were obtained during the department's 1954 census of agriculture.

The dollar value of crops in 1954 represented an increase of 18.6 per cent over sales of $711,681,492 in 1949. The department gave this breakdown:

Field crops, other than vegatable and fruits and nuts, $305,196,503; livestock and livestock products, $255,322,132; dairy products, $149,100,749; poultry and poultry products, $69,991,245; horticultural specialties nursery and greenhouse products $36,213,085; vegetables, $13,709,179; fruits and nuts, $12,949,070; forest products, $1,531,424.

There were gains in product values in 1954 over 1949 in all but one classification — poultry and poultry products. In 1949 the value of these products was listed at $73,649,715.

Wood County farm products in 1954 were valued at $23,527,655—highest in the state. Second was Darke County, with products valued at $21,973,118, and in third place was Fulton County with products valued at $20,362,040.

Wood County led all other counties in the value of crops sold—field, vegetables, fruits and nuts and horticultural specialties amounting to $16,048,330. Henry County was second at $11,307,162, and Darke County third at $10,039,873.

Wayne County led all other Ohio counties in the total value of its livestock and livestock products sold — $14,442,262. Fulton County was second at $13,094,767, and Darke third at $11,606,765.

In dairy products sold, Wayne County led at $7,067,726. Ashtabula County was second at $4,843,767, and Stark County third at $4,231,840.

Post Cards Arrive Only 16 Years Late

CLEVELAND (AP)—The family of Pietro Galioto this week received five penny postcards which relatives mailed them 16 years ago from Brooklyn, Harrisburgh, Philadelphia, and Washington. Mrs. Galioto said the cards were all correctly and legibly addressed, and Postmaster Joseph S. Frantz couldn't explain the long delay in delivery.

The cards had the old - style green, one-cent stamps, and the postman asked Mrs. Galioto to pay the extra penny for each card.

"Five cents is not much," she observed, "but 16 years is a long time to wait."

House Group Approves Big Reserve Setup

WASHINGTON (AP) — The House Appropriations Committee today approved a $40 million construction program for Army reserve training facilities and National Guard armories.

The committee recommended that Congress give the Army just what it asked for buildings in which to carry out an expanded beefing-up of Uncle Sam's standby forces.

Wyoming Man Convicted In Wife's Death

CHEYENNE, Wyo. (AP)—A local jury last night convicted James V. Alexander, 48, of second degree murder in the death of his second wife, Barbara, 24.

The body was dug from the basement floor of Alexander's home nearly 2½ years after she disappeared.

The husky former Casper, Wyo., school teacher faces a penalty of 20 years to life in prison.

At prosecution request, trial of Alexander's first and present wife, Rose, was continued from next Monday until the fall term of court.

Rose was not present to hear her husband convicted. Now free on $10,000 bond, she also is accused of first degree murder in Barbara Alexander's death.

Barbara's body was unearthed last Dec. 6 from a concrete tomb in the basement of the Casper home. At a coroner's inquest and again as a defense witness for her husband, Rose testified Barbara died July 18, 1953, in an accident.

Rose said she buried Barbara and the grave was cemented over by Alexander. Both claimed he was unaware of the tragedy until Casper police discovered the young mother's remains.

The state claimed the husky, balding defendant beat Barbara to death in a jealous rage.

House Nearing Final OK On Soil Bank Plan

Democrats Opposed To Making Advance Payment To Farmer

WASHINGTON (AP) — The House today voted approval of a compromise provision in the new farm bill to insure corn farmers a guaranteed price support of $1.25 a bushel if they put a percentage of their land in a soil bank.

The action, taken in preliminary voting, came as a showdown neared on the politically charged soil bank controversy over giving President Eisenhower authority to pay farmers $500 million in advance this year for their promise to take surplus acreage out of production next year.

In effect, the provision validates the administration program already put into effect by administrative action to provide a minimum support level of $1.25 a bushel for corn grown in the commercial Midwest, regardless of whether growers comply with acreage allotments.

The President has established the level for farmers who comply with acreage allotments at $1.50 a bushel.

In both cases, a condition for support payments would be placement of a percentage of land into the soil bank reserve.

* * *

WITH THE amendments, the bill would have nullified the administrative action by requiring compliance with acreage controls.

One of the amendments also lowered the support level for noncommercial corn (that grown for livestock feeding) to 82½ per cent of parity, instead of 85 per cent as contained in the bill.

Chief proposal at issue was the President's disputed request for

Utah Banker Raps Federal Demands

SALT LAKE CITY (AP)—A Utah bank president says he doesn't think the federal reserve system can order his bank to add $1½ million to its capital. He said yesterday he is going to leave it to the federal agency to try to enforce the order.

Walter E. Cosgriff said the order to raise more capital for his Continental Bank and Trust Co. here came without a hearing and without legal definition of how much capital is "adequate."

He conceded the order might "represent part of a general campaign to force all banking institutions to increase their capital structure." Federal reserve spokesmen were unavailable.

"MAN WEARING GENUINE SHARK SKIN SUIT"

I could make up an hilarious witticism about this Droodle and say the suit depicted was designed by Hart, Schaefner and Sharks and that it comes with two pair of gills and has a fin in the back. But I won't because this suit actually belongs to my neighbor from across the hall, Mr. Cossayuna, who is working this week as a sandwich man for a Fish Market. The front of the suit lights up and says **"SAM'S SEA FOOD WILL MAKE YOU SHREWD"** and a phonagraph in the nose plays "Shrimp Boats are a 'Commin'." I think Mr. C. will get another job pretty soon though. Working inside a dead shark is too much of a strain on everybody. When he gets home at night it takes us 20 minutes to scrape the cats off him.

Detroit Widow Is Mom Of Year

Offshore in a landing craft, Shoup ordered his reserves into the desperate fight and then led them in the sweep inland. By nightfall he had set up his command post 15 yards from the water.

As the senior officer ashore, Shoup, who had received a field promotion to colonel only a couple of days before, directed the entire operation.

"By his brilliant leadership, daring tactics and selfless devotion to duty," the citation read, "Col. Shoup was largely responsible for the final, decisive defeat of the enemy."

In World War II Shoup also collected two Legions of Merit, a commendation ribbon and assorted campaign ribbons for service in the Guadalcanal, Saipan and Tinian operations in the Pacific.

Shoup signed up for the Marines in 1926, underwent training as a second lieutenant and subsequently served in China and at sea.

High Court Jurist Gets Pair's Appeal

PROVIDENCE, R. I. (AP) — Mr. and Mrs. Samuel Sklaroff have made a desperate appeal to Justice Felix Frankfurter of the U. S. Supreme Court.

They want him to stay a court order that would require them to return a 4-year-old boy they've raised from infancy to his natural parents by Saturday.

The Rhode Island Supreme Court ordered the transfer. Immediately afterward, the Sklaroff's attorney filed the appeal to Frankfurter in the latest move in a 30-month custody battle.

The youngster has been living with the Sklaroffs since he was 3 days old. His natural parents, Mr. and Mrs. James Skeadas, are Roman Catholic and the Sklaroffs Jewish, but the religious difference is not an issue in the case.

Yesterday, for the first time, little Freddie saw his natural parents, as he sat with his foster parents in the courtroom. For the Skeadases the sight of the boy undoubtedly brought back memories of the night when Freddie was exchanged between automobiles parked on a Lynn street.

Two years after that transfer, the Sklaroffs sought in Juvenile Court to adopt him. But Mrs. Skeadas, who was unmarried at the time of the birth but later married Skeadas, who claims to be the father, fought the adoption.

2 More Dayton Peddlers Jailed

HAMILTON (AP)—Two more men, arrested in a narcotics raid in Middletown Feb. 11, were sentenced here yesterday.

Judge P. P. Boli sentenced Harold H. Walter, 25, of Dayton to 2-15 years in Ohio Reformatory and fined him $5,000. He sentenced Clifford Byrd, 21, also of Dayton, to 2-15 years in the Ohio Penitentiary and fined him $2,000. Both men pleaded guilty to charges of possessing narcotics.

Commies In India Still Laud Stalin

MADRAS, India (AP) — India's Communist party will continue to regard Stalin as a hero, delegates to the party's annual congress at Palghat reported today.

"How can we join hands with Moscow leaders who throw mud on a great hero of the people because of personal animosity," delegates said.

Britain Opposes NATO Aid Idea

Political Activity OK, Dulles Is Told

PARIS (AP)—British sources said Britain told the United States today it opposes any extension of the North Atlantic Treaty Organization into the foreign aid field for the benefit of the world's undeveloped regions.

U. S. Secretary of State Dulles and British Foreign Secretary Selwyn Lloyd had a midday meeting and British informants said Lloyd told Dulles NATO members should push their aid programs through other institutions.

Suggested were the International Monetary Fund, the Colombo plan for Southeast Asia, or agencies of the United Nations.

West Germany had just agreed with a French plan for linking German reunification to progress in world disarmament which, in turn, would free large sums of capital for investment.

Lloyd and Dulles met for a long discussion of East - West relations and NATO's place in that picture.

* * *

LLOYD TOLD Dulles Britain is willing to expand consultative functions of NATO in the political field, but opposes the creation of a new organization to channel aid to underdeveloped nations. He said Britain also opposes using the NATO framework for sending aid to Asia and the Middle East.

In this, he was joining French Foreign Minister Christian Pineau, who said France opposes using such aid as a weapon in the cold war.

Dulles is to present his ideas to the full NATO Foreign Ministers' Council tomorrow.

4 Dayton Trade Unions Walk Out

DAYTON (AP) — Four AFL-CIO trade unions went on strike here yesterday after contract negotiations with local contractors broke down. The four unions involve asbestos, sheet metal, lath and roofing workers.

Fourteen other trade unions reached new two - year contract settlements which grant wage increases averaging 25 cents an hour. Present wage scales run from $2.95 an hour for sheet metal men to $3.47 an hour for masons.

Barkley's Body Is Returned Home

PADUCAH, Ky. (AP)—The body of Alben W. Barkley, elder statesman and master wit, arrived in Paducah today for burial.

The special 10-car train bearing the late Kentucky Democrat senator and former vice president arrived from Washington and funeral services were held in Broadway Methodist Church.

President Eisenhower and other associates and friends paid final tribute to the "Veep" at services in Washington yesterday.

Circleville Woman Heads Ohio Clubs

COLUMBUS (AP) — Mrs. Ray W. Davis of Circleville today was elected president of the Ohio Federation of Women's Clubs.

Other officers elected at the annual convention were Mrs. Carl A. Weinman, Steubenville, first vice president; Mrs. Harvey Johnson, Canton, second vice president; Mrs. Carl Ausenheimer, Columbus, treasurer and Mrs. Charles Troester, Sidney, recording secretary.

The officers will be installed at a banquet tonight.

Mideast Peace Accord Told By U.N. Aide

Hammarskjold Reports Israel, 4 Arab Nations Agree To Cease-Fire

UNITED NATIONS, N. Y. (AP)—U.N. Secretary General Dag Hammarskjold reported to the U. N. Security Council today he had achieved cease - fire agreements between Israel and four Arab neighbors — Egypt, Lebanon, Syria and Jordan.

In a "progress report" requested by the council, Hammarskjold said he had received assurances from the governments of Egypt and Israel not to engage in hostile activities except in defense.

He said he also had concluded "with positive result" the negotiations with the parties to the other three armistice agreements, specifically Syria, Lebanon and Jordan.

The report was received a day before the deadline set by the Security Council in ordering Hammarskjold to undertake his peace mission to the Middle East.

Hammarskjold is expected to return to New York this weekend and make a final report to the Council next week. Some diplomats said they believed he would be requested to go back in June and try to put the truce agreements on a more solid foundation.

* * *

"IN CARRYING out my mandate," Hammarskjold reported, "I have stayed strictly within the scope set by the Security Council resolution." The resolution requested Hammarskjold to survey the various aspects of enforcement and compliance with the armistice agreements between Israel and the four Arab states.

Hammarskjold said that he considered the resolution a mandate to negotiate for re-establishment of compliance with the pacts.

"I have considered the basic clauses of the general armistice agreements to be those which established a general cease - fire," Hammarskjold said.

The president of the Security Council, Ambassador Joza Brilej of Yugoslavia, circulated the report immediately to members of the Council for their considera-

Ohio Students Prefer Ike And Johnson

By THE ASSOCIATED PRESS

Student delegates at a mock Republican convention last night at Kenyon College "renominated" President Eisenhower while a mock Democratic convention at Hiram College nominated Sen. Lyndon Johnson of Texas for President.

For vice president, Kenyon students picked Gov. Christian Herter of Massachusetts. In Hiram, Democratic Gov. Edmund S. Muskie of Maine was the choice.

Six ballots were needed to nominate Johnson at Hiram. On the sixth ballot Johnson edged Gov. Frank J. Lausche of Ohio by 152-148. Adlai Stevenson showed early strength but faded in later polls while Sen. Estes Kefauver was never in the running.

In Kenyon, President Eisenhower was far out in front of second place Sen. Knowland of California, 123-91 at the end of the first ballot. A swing by the "California" and "Illinois" delegations at the end of the second ballot clinched his nomination.

Keynote speaker at Hiram was Michael V. DiSalle. Sen. George H. Bender was at Kenyon.

Methodists Closing Ranks Against Racial Segregation

MINNEAPOLIS (AP)—The world's largest Protestant denomination, the Methodist Church, today began closing ranks against racial segregation.

Delegates to the church's quadrennial general conference set forth a three-pronged program yesterday condemning segregation, making integration possible in the church structure and studying new ways of bringing Negro and white members of the congregation more closely together.

The conference sped through action opening the door to full integration in the church, urging abolition of discrimination or segregation and setting up a commission to study ways of developing "greater interracial brotherhood."

The conference's first action was to amend the church constitution to pave the way for all Negro church units to move into the regular organization framework.

The plan, which still must be ratified by two-thirds of the voting delegates in 132 conferences, permits individual Negro churches, or entire conferences of Negro churches, to transfer into regular "white" administrative units.

* * *

SUCH ACTION would be on a voluntary basis and could be undertaken by two-thirds vote of the regional groups involved.

The jurisdictional action by the conferences was hailed as a "miracle" by the Rev. C. Cooper Bell of Lynchburg, Va., and the "fastest and longest step" the church can now take to wipe out racial barriers by Leonard D. Slutz, a Cincinnati attorney, who presented the program.

Abolition of discrimination or segregation "by any method or practice, whether by conference or otherwise" and with reasonable speed was called for by the delegates in a resolution.

Offered as guidance, but not as a legally binding measure, the resolution called on Methodists to "actively work" to end racially discriminatory practices in their churches and community life.

The delegates voted overwhelmingly in favor of a plan to set up a commission that will undertake a four-year study of racial problems.

Coming as a supplementary move, the program for a 70-member lay-clergy group will serve to bring the results of a thorough study of the church's jurisdictional system back to the 1960 conference.

First H-Bomb Test Slated For Today

KWAJALEIN (AP)—The opening shot of the new series of nuclear tests, an explosion officially described as "in the kiloton range," is scheduled for today at Eniwetok atoll.

An Atomic Energy Commission spokesman said this opening shot would be followed later by a burst of a big multimillion-ton energy hydrogen bomb.

The first shot was scheduled for about 2 p. m. EST today. The weather, of course, will decide when the scheduled little kiloton fission bomb will be fired.

Epidemic Curbed

BUENOS AIRES (AP)—Argentina's Health Ministry says the polio epidemic is over in Buenos Aires and the surrounding province. The outbreak killed 270 of the 3,000 afflicted.

Wyoming Man Convicted In Wife's Death

CHEYENNE, Wyo. (AP)—A local jury last night convicted James V. Alexander, 48, of second degree murder in the death of his second wife, Barbara, 24.

The body was dug from the basement floor of Alexander's home nearly 2½ years after she disappeared.

The husky former Casper, Wyo., school teacher faces a penalty of 20 years to life in prison.

At prosecution request, trial of Alexander's first and present wife, Rose, was continued from next Monday until the fall term of court.

Rose was not present to hear her husband convicted. Now free on $10,000 bond, she also is accused of first degree murder in Barbara Alexander's death.

Barbara's body was unearthed last Dec. 6 from a concrete tomb in the basement of the Casper home. At a coroner's inquest and again as a defense witness for her husband, Rose testified Barbara died July 18, 1953, in an accident.

Rose said she buried Barbara and the grave was cemented over by Alexander. Both claimed he was unaware of the tragedy until Casper police discovered the young mother's remains.

The state claimed the husky, balding defendant beat Barbara to death in a jealous rage.

Polio Total Down

WASHINGTON (AP) — Seventy-four new cases of polio were reported last week, barely more than half the 146 in the corresponding 1955 week.

Post Cards Arrive Only 16 Years Late

CLEVELAND (AP)—The family of Pietro Galioto this week received five penny postcards which relatives mailed them 16 years ago from Brooklyn, Harrisburgh, Philadelphia, and Washington. Mrs. Galioto said the cards were all correctly and legibly addressed, and Postmaster Joseph S. Frantz couldn't explain the long delay in delivery.

The cards had the old - style green, one-cent stamps, and the postman asked Mrs. Galioto to pay the extra penny for each card.

"Five cents is not much," she observed, "but 16 years is a long time to wait."

House Group Approves Big Reserve Setup

WASHINGTON (AP) — The House Appropriations Committee today approved a $40 million construction program for Army reserve training facilities and National Guard armories.

The committee recommended that Congress give the Army just what it asked for buildings in which to carry out an expanded beefing-up of Uncle Sam's standby forces.

Col. William R. Shuler, construction division chief for the Army's deputy chief for logistics, declared that "all of these projects now activated and meeting in houses, in garages and schools." someone's back office, in ware-

Detroit Widow Is Mom Of Year

DETROIT (AP)—A Detroit widow who has brought love and a happy home to many children is the American Mother of 1956.

She is Jane Maxwell Pritchard, who at 67 still spends nearly all her waking hours making a home for 17 lively girls who live in her rambling brick house on Detroit's East Side. All are children from broken homes, placed under her care by the juvenile court.

In past years, Mrs. Pritchard has been a foster parent to 17 other youngsters and reared 11 more, only one of them her own. All call her "Mother."

Utah Banker Raps Federal Demands

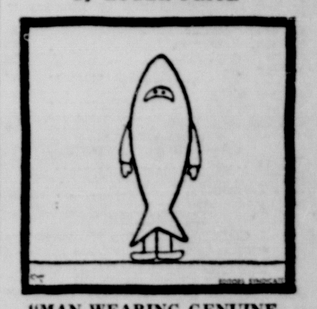
SALT LAKE CITY (AP)—A Utah bank president says he doesn't think the federal reserve system can order his bank to add $1½ million to its capital. He said yesterday he is going to leave it to the federal agency to try to enforce the order.

Walter E. Cosgriff said the order to raise more capital for his Continental Bank and Trust Co. here came without a hearing and without legal definition of how much capital is "adequate."

He conceded the order might "represent part of a general campaign to force all banking institutions to increase their capital structure." Federal reserve spokesmen were unavailable.

DROODLES

By ROGER PRICE



"MAN WEARING GENUINE SHARK SKIN SUIT"

I could make up an hilarious witticism about this Droodle and say the suit depicted was designed by Hart, Schaefner and Sharks and that it comes with two pair of gills and has a fin in the back. But I won't because this suit actually belongs to my neighbor from across the hall, Mr. Cossayuna, who is working this week as a sandwich man for a Fish Market. The front of the suit lights up and says **"SAM'S SEA FOOD WILL MAKE YOU SHREWD"** and a phonagraph in the nose plays "Shrimp Boats are a 'Commin'." I think Mr. C. will get another job pretty soon though. Working inside a dead shark is too much of a strain on everybody. When he gets home at night it takes us 20 minutes to scrape the cats off him.

Ag Agency Gives Ohio Crop Data, Value Of Products Sold

COLUMBUS (AP) — Products sold by 177,074 farms in Ohio in 1954 had a value of $844,013,387.

The U. S. Department of Commerce reported that the figures were obtained during the department's 1954 census of agriculture.

The dollar value of crops in 1954 represented an increase of 18.6 per cent over sales of $711,681,492 in 1949. The department gave this breakdown:

Field crops, other than vegatable and fruits and nuts, $305,196,503; livestock and livestock products, $255,322,132; dairy products, $149,100,749; poultry and poultry products, $69,991,245; horticultural specialties nursery and greenhouse products $36,213,085; vegetables, $13,709,179; fruits and nuts, $12,949,070; forest products, $1,531,424.

There were gains in product values in 1954 over 1949 in all but one classification — poultry and poultry products. In 1949 the value of these products was listed at $73,649,715.

Wood County farm products in 1954 were valued at $23,527,655—highest in the state. Second was Darke County, with products valued at $21,973,118, and in third place was Fulton County with products valued at $20,362,040.

Wood County led all other counties in the value of crops sold—field, vegetables, fruits and nuts and horticultural specialties amounting to $16,048,330. Henry County was second at $11,307,162, and Darke County third at $10,039,873.

Wayne County led all other Ohio counties in the total value of its livestock and livestock products sold — $14,442,262. Fulton County was second at $13,094,767, and Darke third at $11,606,765.

In dairy products sold, Wayne County led at $7,067,726. Ashtabula County was second at $4,843,767, and Stark County third at $4,231,840.

tion. The report was in the form of a letter to the Council president and was dated May 2.

In addition to giving the background of the Security Council resolution which sent him on his mission, Hammarskjold said that the task had been such he was not able fully to observe the time limit. He said the need first of all had been to try "to stop the dangerous developments which dominated the situation in the region on my arrival."

Diplomats here said they believed he had successfully lowered tension in the area.

A squabble over water rights on the Jordan threatened his mission, but he received tentative pledges from Syria, Jordan and Lebanon earlier to help stop the border shooting.

A high Israeli official earlier denied a published report Israel had promised not to resume work on the Jordan River diversion in order to obtain Syrian consent to cease-fire.

The cease-fire agreement has to be unconditional with Syria in the same way as it is unconditional with Egypt, he said.

ing standards should remain high and "less qualified teachers should be used only on an emergency basis." He urged that consideration be given to the "teacher aide program."

O'Neill cited the $150 million bond issue already approved for the state's colleges, mental institutions and prisons and a substantial amount of a $500 million highway department bond issue as funds that will be available to a new administration to start improving the state's services.

"WE MUST administer these programs with a will to get things done," O'Neill said.

Brown told a Lions Club meeting the Republican majority in the last session of the General Assembly made substantial progress in highway, mental health and workmen's compensation legislation.

DiSalle, addressing a mock political convention at Hiram College, said the Republican administration has failed to keep its 1952 campaign promises to the farmers. He added that the administration's "tight money" policy is stifling small business.

Aiming his guns at the Eisenhower foreign policy, the former Toledo mayor said:

"In 1952 we were recognized as leaders in the free world. Yet in recent months we have seen our flag desecrated and our consulates stoned in places outside the iron curtain."

Saxbe, a former speaker of the Ohio House, told a group of campaign volunteers that "democracy has drifted too far away from the principal that government is intended to protect, not harass."

Bender Rips Into Democratic Party

GAMBIER (AP)—Sen. George H. Bender said yesterday the Democratic party has "abandoned" the "standards of god and bad, right and wrong which are permanent."

The Ohio Republican, in a speech prepared for Kenyon College's mock political convention, castigated his political foes as responsible for American losses in Asia and for the "odor of corruption" on the domestic scene.

"The Republican Party is a party of optimism," he said. "We believe that here is nothing that America cannot achieve. Our country can meet the challenge of aggressive world communism. We can overcome the growing pains of an expanding domestic economy."

Injunction Binds 2 Rail Unions

TOLEDO (AP)—Two railroad brotherhoods are under permanent injunction against striking because the New York Central closed its North Toledo yard last year.

Federal Judge Frank L. Kloeb held there was nothing in agreements between the railroad and the brotherhood of railroad trainmen and brotherhood of locomotive firemen and enginemen which gave employes a vested interest in their jobs.

Nor did that agreement require the NYC to maintain the North Toledo Yard if it decided the facility should be closed in the interest of operating efficiency, Judge Kloeb's opinion continued.

Ed Schorr Labeled 'Invisible Boss' Of GOP In Ohio

MEDINA (AP)—Lt. Gov. John W. Brown has labeled Ed Schorr of Cincinnati as the "invisible boss of the Republican party."

Brown, who is opposing C. William O'Neill for the Republican gubernatorial nomination, said Schorr "feels that the election of my opponent will once again return him to statewide power."

He declared that Schorr's followers are trying "to rid themselves" of State Republican Chairman Ray Bliss. He said "Schorr is the type of political orge who becomes involved in backroom deals and willingly sells out his party for self gain."

GEORGE E. SOKOLSKY, whose top-rated column, "These Days", appears in The Circleville Herald, is shown above accepting an American Legion award from National Commander J. Addington Wagner. The award, which was voted to Sokolsky at the last national convention, was "For alerting America to the dangers that confront us at home and abroad, and for his faithful and courageous expose of the dangers of communism and subversion." Presentation was made during a dinner at the Commodore hotel in New York at which the Legion New York Department paid tribute to National Commander Wagner. Sokolsky's column is on the editorial page.

Ohio GOPsters See Big Sweep At Polls

WASHINGTON (AP)—A group of Ohio Republicans told Vice President Nixon here yesterday that the Republicans should win the Ohio governorship.

They aso predicted that Sen. Bender (R-Ohio) will defeat Gov. Frank J. Lausche, a Democrat, in the Senate race.

The group, meeting with Nixon in his office here invited him to open the GOP campaign in Ohio but Nixon was noncommittal.

Meeting with the vice president were Sen. Bricker (R-Ohio); C. Stanley Mechem of Nelsonville, president pro tem of the Ohio Senate; Roger Cloud of DeGraff, speaker of the Ohio House; Ray Bliss, Ohio GOP chairman; and John McElroy, administrative assistant to Bricker.

Grandstand Rule Given By O'Neill

COLUMBUS (AP)—Atty. Gen. C. William O'Neill today gave the Ashtabula County Agricultural Society the go-ahead for construction of a $45,000 fairgrounds grandstand.

A ruling said societies can "save up" grants from counties for permanent improvements that cost more than the $20,000 annual limit on allocations.

The opinion to Ashtabula Prosecutor Calvin M. Hutchins said statute forbids counties to allocate more than $20,000 a year for permanent fairgrounds projects. The attorney general added that such funds could not be accumulated from year to year in the county treasury.

Husband, Wife Both Seek Offices

SAN MARINO, Calif. (AP) — Politics is a family affair for the Sobieskis of San Marino.

John Sobieski is running for Congress; his wife Marylyn is running for state assembly.

As of now, they stand a fighting, though outside, chance to duplicate the 1954 coup of another Western political couple, the Neubergers of Oregon. Richard Neuberger won a U. S. Senate post; his wife Maurine was elected state representative.

Like the Neubergers, the Sovieskis are Democrats. What makes their task extra formidable is that they're running in a district where Republicans hold an estimated 5,000-vote registration edge.

Toledo Labor Group Defending DiSalle

TOLEDO (AP)—The Toledo Labor-Management - Citizens Committee has come to the defense of Michael V. DiSalle who was accused by a political opponent of claiming credit for Toledo's labor peace plan.

John E. Sweeney, Cleveland, a rival of DiSalle's for the Democratic gubernatorial nomination, declared the latter had usurped credit for the LMC.

Through its director, Jerome Gross, the LMC pointed out that it was created through a resolution initiated by DiSalle in 1945 and that the LMC charter was written by a committee of 18 headed by DiSalle.

Farmers Home Group Details Rule On Loans

More families in Pickaway County should now be able to become farm owners, enlarge their farms, or develop already owned farms to the point where they will provide a greater income.

Cornell E. Copeland, county supervisor of the Farmers Home Administration in Pickaway County, advised today that the organization's administrator has authorized an increase in the average value of efficient family-type farm units for farm ownership loans in Pickaway County. This average value has been increased from $25,000 to $40,000.

This will mean that qualified families may now purchase more efficient units.

These loans can also be made to buy additional land if the family's unit is too small. Some families may also wish to secure these loans to improve their buildings or for land development purposes.

* * *

IN ADDITION to real estate loans, the Farmers Home Administration also has production and subsistence loans for the purchase of livestock, machinery, and operating capital. For those farm owners interested in conservation, the Farmers Home Administration has available soil and water conservation loans.

Anyone interested in more information regarding this increase in average values on real estate loans, or on other loans available, may contact the local Farmers Home Administration office, located at 119½ So. Court St., Circleville, Ohio.

2 Lebanon Men Killed In Crash

LEBANON (AP)—Two young men were killed last night in an automobile collision on U. S. 22, 2½ miles southwest of nearby Morrow.

State highway patrolmen identified the dead as Eugene Boger, 23, of Lebanon, and Carl Cheesman, 24, of near Lebanon.

Harley Combs, 19, of Morrow and Nancy Norman, 17, of South Lebanon, riding in the other car were injured seriously.

Patrolmen said the car driven by Boger apparently went out of control, hit a guard rail and bounced back in the path of the Combs car.

House Nearing Final OK On Soil Bank Plan

authority to pay up to $500 million to farmers this year in advance of fulfillment of their soil bank commitments on next year's crops.

Republican leaders busily sought an acceptable formula that would upset Democratic opposition, but Speaker Rayburn (D-Tex) declared "no agreement" had been reached.

Republicans hope to win approval of what Rep. Halleck of Indiana, GOP floor leader, called an "acceptable" compromise which would place restrictions on prepayment authority.

In early tentative form, these restrictions would in effect establish standards of payment geared to farm expenses for putting land to grass or trees, or otherwise taking surplus acreage out of production for soil bank reserves.

Democrats continued to balk at any rewriting of the bill to give what they have termed a political advantage to the administration in a bid for the November farm vote.

Chairman Cooley (D-NC) of the House Agriculture Committee countered with a proposed amendment to authorize soil bank payments for this year, not as an advance payment but only for fulfillment of soil bank agreements taking land out of cultivation this year.

Galion Couple Given Sentence

BUCYRUS, Ohio (AP) — Juvenile Judge Don J. Young has sentenced a Galion couple to one-year terms for acting in a way tending to cause the delinquency of their adopted daughter.

The one-year terms and fines of $250 each were imposed on Carl and Katherine Gans. The couple was charged in connection with the marriage of 11-year-old Karlene Gans. Court testimony showed the pair aided her in obtaining a West Virginia marriage license so that Karlene could marry Stanley Thorne, 18.

Thorne charged the girl's parents lied about her age so that she could obtain the license. A jury found the couple guilty last March 29.

The departments of Commerce and Labor were originally one. They were divided by act of Congress in 1913.

DEATHS AND FUNERALS

CLAUDE TRACY

James C. Tracy of Arbovale, W. Va., died suddenly as result of a heart attack today at the home of Lewis Brevard on Dunkle Road.

Mr. Tracy was fatally stricken about 11 a. m.

He had lived at the Brevard residence through the past Winter.

Funeral arrangements are being completed by the Defenbaugh Funeral Home.

Gift Donations May Be Made To Heart Fund

Pickaway Countians are reminded that they can make contributions to the Memorial Fund of the Heart Society upon the death of a friend or relative.

When the gift is received by the Heart Society, an acknowledgment will be sent to the family of the person for whom the contribution was made. Your name and the purpose of the gift will be designated.

Gifts may also be made for happy occasions—such as birthdays, anniversaries, etc.

The amount of the contribution is held in strict confidence. The honor is sent an official receipt, which he can use as a reference when making out the exempt contribution portion of his or her income tax report.

There are several films on the heart available for distribution in the area. Anyone interested should contact Miss Ruth Montelius at 730.

Cooper Holds Mum About Senate Race

NEW YORK (AP)—John Sherman Cooper, U. S. Ambassador to India and former Republican senator from Kentucky, has declined to say whether he would seek the seat made vacant by the death of Sen. Alben Barkley.

Cooper, who arrived aboard the liner America yesterday, said "there'll probably be some" conferences about such a move while he is in Washington.

He has returned to testify there before the Senate Foreign Relations Committee and the House Foreign Affairs Committee in connection with Indian appropriations under President Eisenhower's foreign aid program.

Staff Sgt. Don E. Furniss, son of Mr. and Mrs. Sherman Furniss of Clarksburg, has returned home after serving four years in the Air Force.

He received his discharge at MacDill Air Force Base, Tampa, Fla., where he had been stationed since his return from Korea in October, 1954.

Veterans Told How Insurance Benefits Work

James P. Shea, Pickaway County Veterans Service officer, issued another warning today to those veterans of World War II who still have not converted their National Service Life Insurance—perhaps better known as "Straight GI".

Shea reminded all those veterans that their premiums will increase every five years, and the dividends meanwhile will decline.

Once the veteran converts to a permanent plan policy (ordinary life, 20 - Pay Life, 30-Pay Life, 20-Year Endowment, Endowment Age 60, and Endowment Age 65), his premiums will not increase beyond the cost of conversion. And his dividends will remain the same.

Shea added:

"Another benefit the veteran gets from converting as soon as possible is the savings in the cost of conversion. The older a veteran is when he converts, the more it costs him."

Further information, and forms to convert government insurance, can be obtained at Shea's office, located in the basement of the Pickaway County courthouse.

Wife Beater Given Fine Of $25 Plus 1-Year Probation

Hunter T. Certain, 32, of Circleville, was fined $25 and costs and sentenced to 30 days in jail today from municipal court for assault and battery.

The jail term was suspended and Certain was placed on probation for one year. The affidavit was signed by his wife, Lucy.

George E. Gardiner, 19, of Lockbourne Air Force Base, was fined $25 and costs for reckless driving. He was arrested by Officer John Lockard.

Lancaster Wins Hike In Budget

COLUMBUS (AP)—The city of Lancaster today won a $6,734 increase in the local government fund allocated by the Fairfield County Budget Commission.

The city had appealed to the state board of tax appeals from an order of the commission allocating Lancaster $57,162.

The board ruled that the city's needs are $109,872 and that the needs of the county total $141,798.

The board ordered that $63,896 of the local government fund be distributed to Lancaster and that Fairfield County got $89,455.

Mideast Peace Accord Told By U.N. Aide

tion. The report was in the form of a letter to the Council president and was dated May 2.

In addition to giving the background of the Security Council resolution which sent him on his mission, Hammarskjold said that the task had been such he was not able fully to observe the time limit. He said the need first of all had been to try "to stop the dangerous developments which dominated the situation in the region on my arrival."

Diplomats here said they believed he had successfully lowered tension in the area.

A squabble over water rights on the Jordan threatened his mission, but he received tentative pledges from Syria, Jordan and Lebanon earlier to help stop the border shooting.

A high Israeli official earlier denied a published report Israel had promised not to resume work on the Jordan River diversion in order to obtain Syrian consent to cease-fire.

The cease-fire agreement has to be unconditional with Syria in the same way as it is unconditional with Egypt, he said.

TOLEDO (AP)—Two railroad brotherhoods are under permanent injunction against striking because the New York Central closed its North Toledo yard last year.

Federal Judge Frank L. Kloeb held there was nothing in agreements between the railroad and the brotherhood of railroad trainmen and brotherhood of locomotive firemen and enginemen which gave employes a vested interest in their jobs.

Nor did that agreement require the NYC to maintain the North Toledo Yard if it decided the facility should be closed in the interest of operating efficiency, Judge Kloeb's opinion continued.

Ed Schorr Labeled 'Invisible Boss' Of GOP In Ohio

MEDINA (AP)—Lt. Gov. John W. Brown has labeled Ed Schorr of Cincinnati as the "invisible boss of the Republican party."

Brown, who is opposing C. William O'Neill for the Republican gubernatorial nomination, said Schorr "feels that the election of my opponent will once again return him to statewide power."

He declared that Schorr's followers are trying "to rid themselves" of State Republican Chairman Ray Bliss. He said "Schorr is the type of political orge who becomes involved in backroom deals and willingly sells out his party for self gain."

GEORGE E. SOKOLSKY, whose top-rated column, "These Days", appears in The Circleville Herald, is shown above accepting an American Legion award from National Commander J. Addington Wagner. The award, which was voted to Sokolsky at the last national convention, was "For alerting America to the dangers that confront us at home and abroad, and for his faithful and courageous expose of the dangers of communism and subversion." Presentation was made during a dinner at the Commodore hotel in New York at which the Legion New York Department paid tribute to National Commander Wagner. Sokolsky's column is on the editorial page.

Ohio GOPsters See Big Sweep At Polls

WASHINGTON (AP)—A group of Ohio Republicans told Vice President Nixon here yesterday that the Republicans should win the Ohio governorship.

They aso predicted that Sen. Bender (R-Ohio) will defeat Gov. Frank J. Lausche, a Democrat, in the Senate race.

The group, meeting with Nixon in his office here invited him to open the GOP campaign in Ohio but Nixon was noncommittal.

Meeting with the vice president were Sen. Bricker (R-Ohio); C. Stanley Mechem of Nelsonville, president pro tem of the Ohio Senate; Roger Cloud of DeGraff, speaker of the Ohio House; Ray Bliss, Ohio GOP chairman; and John McElroy, administrative assistant to Bricker.

Grandstand Rule Given By O'Neill

COLUMBUS (AP)—Atty. Gen. C. William O'Neill today gave the Ashtabula County Agricultural Society the go-ahead for construction of a $45,000 fairgrounds grandstand.

A ruling said societies can "save up" grants from counties for permanent improvements that cost more than the $20,000 annual limit on allocations.

The opinion to Ashtabula Prosecutor Calvin M. Hutchins said statute forbids counties to allocate more than $20,000 a year for permanent fairgrounds projects. The attorney general added that such funds could not be accumulated from year to year in the county treasury.

Husband, Wife Both Seek Offices

SAN MARINO, Calif. (AP) — Politics is a family affair for the Sobieskis of San Marino.

John Sobieski is running for Congress; his wife Marylyn is running for state assembly.

As of now, they stand a fighting, though outside, chance to duplicate the 1954 coup of another Western political couple, the Neubergers of Oregon. Richard Neuberger won a U. S. Senate post; his wife Maurine was elected state representative.

Like the Neubergers, the Sovieskis are Democrats. What makes their task extra formidable is that they're running in a district where Republicans hold an estimated 5,000-vote registration edge.

Toledo Labor Group Defending DiSalle

TOLEDO (AP)—The Toledo Labor-Management - Citizens Committee has come to the defense of Michael V. DiSalle who was accused by a political opponent of claiming credit for Toledo's labor peace plan.

John E. Sweeney, Cleveland, a rival of DiSalle's for the Democratic gubernatorial nomination, declared the latter had usurped credit for the LMC.

Through its director, Jerome Gross, the LMC pointed out that it was created through a resolution initiated by DiSalle in 1945 and that the LMC charter was written by a committee of 18 headed by DiSalle.

Farmers Home Group Details Rule On Loans

More families in Pickaway County should now be able to become farm owners, enlarge their farms, or develop already owned farms to the point where they will provide a greater income.

Cornell E. Copeland, county supervisor of the Farmers Home Administration in Pickaway County, advised today that the organization's administrator has authorized an increase in the average value of efficient family-type farm units for farm ownership loans in Pickaway County. This average value has been increased from $25,000 to $40,000.

This will mean that qualified families may now purchase more efficient units.

These loans can also be made to buy additional land if the family's unit is too small. Some families may also wish to secure these loans to improve their buildings or for land development purposes.

* * *

IN ADDITION to real estate loans, the Farmers Home Administration also has production and subsistence loans for the purchase of livestock, machinery, and operating capital. For those farm owners interested in conservation, the Farmers Home Administration has available soil and water conservation loans.

Anyone interested in more information regarding this increase in average values on real estate loans, or on other loans available, may contact the local Farmers Home Administration office, located at 119½ So. Court St., Circleville, Ohio.

2 Lebanon Men Killed In Crash

LEBANON (AP)—Two young men were killed last night in an automobile collision on U. S. 22, 2½ miles southwest of nearby Morrow.

State highway patrolmen identified the dead as Eugene Boger, 23, of Lebanon, and Carl Cheesman, 24, of near Lebanon.

Harley Combs, 19, of Morrow and Nancy Norman, 17, of South Lebanon, riding in the other car were injured seriously.

Patrolmen said the car driven by Boger apparently went out of control, hit a guard rail and bounced back in the path of the Combs car.

House Nearing Final OK On Soil Bank Plan

(Continued from Page One)

authority to pay up to $500 million to farmers this year in advance of fulfillment of their soil bank commitments on next year's crops.

Republican leaders busily sought an acceptable formula that would upset Democratic opposition, but Speaker Rayburn (D-Tex) declared "no agreement" had been reached.

Republicans hope to win approval of what Rep. Halleck of Indiana, GOP floor leader, called an "acceptable" compromise which would place restrictions on prepayment authority.

In early tentative form, these restrictions would in effect establish standards of payment geared to farm expenses for putting land to grass or trees, or otherwise taking surplus acreage out of production for soil bank reserves.

Democrats continued to balk at any rewriting of the bill to give what they have termed a political advantage to the administration in a bid for the November farm vote.

Chairman Cooley (D-NC) of the House Agriculture Committee countered with a proposed amendment to authorize soil bank payments for this year, not as an advance payment but only for fulfillment of soil bank agreements taking land out of cultivation this year.

Galion Couple Given Sentence

BUCYRUS, Ohio (AP) — Juvenile Judge Don J. Young has sentenced a Galion couple to one-year terms for acting in a way tending to cause the delinquency of their adopted daughter.

The one-year terms and fines of $250 each were imposed on Carl and Katherine Gans. The couple was charged in connection with the marriage of 11-year-old Karlene Gans. Court testimony showed the pair aided her in obtaining a West Virginia marriage license so that Karlene could marry Stanley Thorne, 18.

Thorne charged the girl's parents lied about her age so that she could obtain the license. A jury found the couple guilty last March 29.

The departments of Commerce and Labor were originally one. They were divided by act of Congress in 1913.

DEATHS AND FUNERALS

CLAUDE TRACY

James C. Tracy of Arbovale, W. Va., died suddenly as result of a heart attack today at the home of Lewis Brevard on Dunkle Road.

Mr. Tracy was fatally stricken about 11 a. m.

He had lived at the Brevard residence through the past Winter.

Funeral arrangements are being completed by the Defenbaugh Funeral Home.

Gift Donations May Be Made To Heart Fund

Pickaway Countians are reminded that they can make contributions to the Memorial Fund of the Heart Society upon the death of a friend or relative.

When the gift is received by the Heart Society, an acknowledgment will be sent to the family of the person for whom the contribution was made. Your name and the purpose of the gift will be designated.

Gifts may also be made for happy occasions—such as birthdays, anniversaries, etc.

The amount of the contribution is held in strict confidence. The honor is sent an official receipt, which he can use as a reference when making out the exempt contribution portion of his or her income tax report.

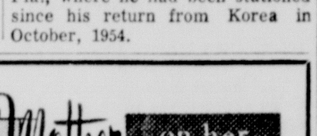
There are several films on the heart available for distribution in the area. Anyone interested should contact Miss Ruth Montelius at 730.

Cooper Holds Mum About Senate Race

NEW YORK (AP)—John Sherman Cooper, U. S. Ambassador to India and former Republican senator from Kentucky, has declined to say whether he would seek the seat made vacant by the death of Sen. Alben Barkley.

Cooper, who arrived aboard the liner America yesterday, said "there'll probably be some" conferences about such a move while he is in Washington.

He has returned to testify there before the Senate Foreign Relations Committee and the House Foreign Affairs Committee in connection with Indian appropriations under President Eisenhower's foreign aid program.



Staff Sgt. Don E. Furniss, son of Mr. and Mrs. Sherman Furniss of Clarksburg, has returned home after serving four years in the Air Force.

He received his discharge at MacDill Air Force Base, Tampa, Fla., where he had been stationed since his return from Korea in October, 1954.

Veterans Told How Insurance Benefits Work

James P. Shea, Pickaway County Veterans Service officer, issued another warning today to those veterans of World War II who still have not converted their National Service Life Insurance—perhaps better known as "Straight GI".

Shea reminded all those veterans that their premiums will increase every five years, and the dividends meanwhile will decline.

Once the veteran converts to a permanent plan policy (ordinary life, 20 - Pay Life, 30-Pay Life, 20-Year Endowment, Endowment Age 60, and Endowment Age 65), his premiums will not increase beyond the cost of conversion. And his dividends will remain the same.

Shea added:

"Another benefit the veteran gets from converting as soon as possible is the savings in the cost of conversion. The older a veteran is when he converts, the more it costs him."

Further information, and forms to convert government insurance, can be obtained at Shea's office, located in the basement of the Pickaway County courthouse.

Wife Beater Given Fine Of $25 Plus 1-Year Probation

Hunter T. Certain, 32, of Circleville, was fined $25 and costs and sentenced to 30 days in jail today from municipal court for assault and battery.

The jail term was suspended and Certain was placed on probation for one year. The affidavit was signed by his wife, Lucy.

George E. Gardiner, 19, of Lockbourne Air Force Base, was fined $25 and costs for reckless driving. He was arrested by Officer John Lockard.

Lancaster Wins Hike In Budget

COLUMBUS (AP)—The city of Lancaster today won a $6,734 increase in the local government fund allocated by the Fairfield County Budget Commission.

The city had appealed to the state board of tax appeals from an order of the commission allocating Lancaster $57,162.

The board ruled that the city needs are $109,872 and that the needs of the county total $141,798.

The board ordered that $63,896 of the local government fund be distributed to Lancaster and that Fairfield County got $89,455.

WASHINGTON (AP)—Sen. Smathers has an idea.

The Florida Democrat thinks no one should be allowed to serve on the Supreme Court unless he has previously served at least five years as judge of a lower federal court or a state supreme court.

If his idea had prevailed throughout American history:

1. Only 2 of the 14 chief justices who have presided over the court since its beginning could have held the job. The two—William Howard Taft and Fred M. Vinson—headed the court in this century.

2. Only one of the nine present members of the Supreme Court—Justice Sherman Minton—could be sitting there now. None of the other eight, including Chief Justice Warren, could have qualified under Smathers' proposal.

He offered it in the Senate this week. What was his reason? He said the members of the court should have a "judicial" temperament, meaning previous experience as judges.

He acknowledged that some Supreme Court justices who had never had judicial experience before turned out to be distinguished justices. But some, he said, didn't.

Sen. Morse (D-Ore) challenged him at once to name names, state cases and give a bill of particulars if he didn't think any of the justices in American history hadn't measured up to Smathers' opinion of what a justice should be.

Smathers didn't reply to the challenge.

Never once in his long Senate speech supporting his proposal did Smathers refer to the court decision outlawing racial segregation in the public schools. But several times he repeated a complaint Southerners have been making since the Supreme Court gave its school decision on May 17, 1954.

This is their complaint: That the court overstepped its limits by trying to legislate an end to segregation when it ruled segregation was unlawful. Smathers didn't say this directly. He referred to "legislation" by the court.

Sen. Neuberger (D-Ore) asked Smathers if it wouldn't similarly be "advisable" not to let anyone become president unless he had served as a state governor or a member of Congress unless he had served in a state legislature? Neuberger said this seemed as sensible as Smathers' proposal.

Smathers said he didn't think this would be advisable. He said if Supreme Court justices had judicial experience before reaching the high court they wouldn't try to legislate when they got there.

Under questioning by Sen. Potter (R-Mich), Smathers agreed that some of the best legal minds in the country are in the heads of lawyers who never sat on a bench and his proposal would bar them from ever sitting on the Supreme Court.

The 12 of the 14 chief justices who couldn't have met Smathers' qualifications were: John Jay, John Rutledge, Oliver Ellsworth, John Marshall, Roger B. Taney, Salmon P. Chase, Morrison R. Waite, Melville W. Fuller, Edward D. White, Charles Evans Hughes, Harlan F. Stone and Earl Warren.

Smathers wouldn't make his proposal, if it became law, apply to present justices but only to those appointed in the future. It's a proposal which seems to have a wonderful chance of getting no place.

Mental Health Chairman Named

COLUMBUS (AP)—Walter G. Nord, president of the Ohio Mental Health Assn., has announced the appointment of Col. Gustav Hirsch of Columbus as chairman of Mental Health Month.

Nord said yesterday a drive for funds is starting this week and will be carried on in 48 counties. Mental Health Month is observed nationally during May.

Mental Disease Specialist Says New Practices Failing

CHICAGO (AP) — A specialist in control of mental diseases says that psychiatry, shock treatments, brain surgery and drugs have failed to solve the problem of mental illness.

Dr. Percival Bailey, director of the Illinois State Psychiatric Institute of Chicago, lashed out at many modern techniques for treating mental states as dangerous or ineffectual.

In a speech before the American Psychiatric Assn., Dr. Bailey, a former specialist in brain surgery, said:

"The task of psychiatrists, it seems to me, is to get back in the asylums and laboratories, which they are so proud to have left behind them, and prove, by established criteria, that their concepts have scientific validity."

Dr. Bailey said he has been "frankly appalled" by the results of lobotomy, a surgical procedure for treating certain mental conditions by severing nerve pathways to a frontal lobe of the brain.

* * *

"THE MOST favorable result seems to be that the disturbed patients, after lobotomy, are easier to handle in the hospital," he said.

He said lobotomy has been forbidden by the Soviet Union and severely criticized by Pope Pius XII and is rapidly disappearing from American practice.

Dr. Bailey said insulin shock treatment in certain mental states is "less dramatic and brutal" than electric shock treatment "but its effects are also transitory in schizophrenics and there is a temptation to use it, as in the case with lobotomy, as another substitute for administration, more personnel and larger budgets." He added:

"Moreover this treatment sometimes leaves organic syndromes more serious than broken backs, such as the loss of memory or impulsive and violent behavior."

He said that "lately the crowd has rushed to a new series of drugs" such as the tranquilizers, rauwolfa and serpentina, but he added that there have been similar enthusiasms concerning other drugs.

Drugs, he said, do not seem to be the answer to the problem.

He predicted schizophrenia, one of the abnormal mental states most resistant to treatment, will be solved by the biochemist.

Throwing Of Rock Said Only Effort To Help 2 Nuns

OGDEN, Utah (AP)—Thomas Dawson, 39, says he was only trying to help when he threw a rock at two nuns.

He told City Judge Charles Sneddon he tossed the rock because the women were checking their gas tank to see if it was full and had just struck a match to see better.

"I wanted to warn them of the danger," he said. "It was quite a large rock. It was the only one I could find. It missed the car and struck a man who was quarreling with his wife. The rock glanced off his head and through a grocery store window."

At this, Dawson said, the man got "upset and came over to make trouble."

Judge Sneddon sentenced Dawson to 30 days in city jail on a disorderly conduct charge.

First Of 8 Defiance Defendants Guilty

DEFIANCE, Ohio (AP)—The first of eight persons to face trial on narcotics charges has been found guilty of selling marijuana. He is Benito B. Sanchez, 19, of Defiance.

The jury of nine men and three women deliberated two hours and 45 minutes before reaching its verdict.

Common Pleas Judge Dan Batt delayed sentencing to allow time for a pre-sentence investigation.

The second of the group, Alberto C. Flores, 24, of Defiance, indicted on three counts of selling marijuana and two of possession, is scheduled for trial Monday.

Light Lunch Order Yields 2 Arrests

BALTIMORE (AP) —Two detectives entered a short-order restaurant and asked for light lunch. They weren't talking about franks and beans or ham and eggs. They weren't offered them either. So the owner, James Kondelis, 58, and his son Gus, 28, were charged with bookmaking. Light Lunch was a nag running in the third race at Laurel. Came in fourth.

Women To Handle City Park Meters

SCOTTSBLUFF, Neb. (AP) — Scottsbluff is going to turn the job of ticketing parking meter violators over to the ladies. City Manager Carsten Leikvold Wednesday night said two women will be hired to replace the one policeman who now handles the job. Announcing the decision, Leikvold soberly said, "Applicants should be quite healthy. Considerable walking is required."

'Hidden Epilepsy' Total Ranked High

LOS ANGELES (AP)—A psychiatrist says 20 per cent of the U.S. population may be suffering from "hidden epilepsy."

Many persons who have momentary mental blackouts or dimouts may be suffering from the disorder, Dr. Charles L. Yeager of the University of California said.

Fidgety children and adults who complain of nervous disorders are likely to have the ailment, he said. Mostly it is nondisabling, but in some instances it can develop into little attacks of real epilepsy, he told the California Medical Assn.

Brain wave recordings can disclose the condition, he said.

Chief Named

COLUMBUS (AP)—The Ohio Foundation of Independent Colleges has named Dr. Lloyd L. Ramseyer, president of Bluffton College, as its new chairman.

Fenn College Lops 42 Years Off Age

CLEVELAND (AP) — Fenn College is 42 years "younger" today.

Its board of trustees decided yesterday the institution was founded in 1923 instead of 1881.

"We could find no real reason for the 1881 date," said President G. Brooks Earnest. "We don't know why it was selected, when it was selected or by whom."

He said the college could trace its origin back to 1870 when courses were first offered when Fenn was a YMCA affiliate. But the board decided on 1923 when college level courses with a degree program were started.

Woman Accused Of Slaying Mate

LOS ANGELES (AP)—A 65-year-old woman is held on suspicion of murder in the hammer killing of her crippled husband.

Police said Mrs. Agnes Leslie told them she suddenly decided Wednesday to kill her husband Charles, 60, "because he needed to be waited on all the time, and I'm going blind and couldn't help him any more."

Officers said Mrs. Leslie slashed her throat and wrists with a razor and was found wandering outside their apartment by a neighbor. Doctors said she probably will recover.

5th East Liverpool Cop Quits Position

EAST LIVERPOOL (AP)—Donald E. Goodballet yesterday became the fifth member of the East Liverpool police force to quit as a result of a Columbiana County grand jury criticism of the police operation.

Goodballet was given a 30-day suspension after the jury report said he had been intoxicated on duty, frequented gambling places and borrowed or tried to borrow money from gamblers.

Court Ruling Saves BUC Big Idle Payoff

COLUMBUS, Ohio (AP)—The Ohio Supreme Court has ruled out the possibility that 80,000 Ohioans who were jobless in mid-1949 might have a few more dollars each coming to them in unemployment compensation benefits.

BUC officials said between three and four million dollars was involved in a dispute over jobless claims stemming from the Legislature's change in the law effective Aug. 22, 1949.

Julius Jaskiewicz of Cleveland filed for benefits about seven weeks before the law increasing payments was effective. He went to court after a BUC refere and the BUC's Board of Review turned down his demand to share in the increase. Cuyahoga County courts upheld the refusal and the Supreme Court Wednesday did likewise.

Attorneys said a decision in Jaskiewicz' favor would have affected thousands of claimants who were receiving benefits at the time the change became effective as well as hundreds of employes contributing to the benefit fund.

In another action, the high court refused to upset the conviction of Buddy Fares of Youngstown on a charge of malicious libel of Edward J. Allen, a former Youngstown police chief. Allen, who later became state enforcement chief of the Liquor Department, now is police chief at Santa Ana, Calif. The libel case stemmed from an account in a Youngstown shopping guide claiming members of Allen's vice squad were linked with gamblers.

BOMBAY (AP)—The 7,500-ton Soviet freighter Krasnodar arrived here from Odesua with 1,700 tons of newsprint and 1,300 tons of steel, inaugurating India - Russia shipping service.

Use only 3 eggs in this recipe since with Clabber Girl Baking Powder it will be as light and fluffy as with many more eggs. Choose your own filling, if you wish, instead of grape or apple jelly. There's no substitute, here, for your own baking skill.

LEMON JELLY ROLL *Yield: 6 to 8 servings*

1 cup sifted cake flour
1½ teaspoons Clabber Girl Baking Powder
¼ teaspoon salt
3 eggs
1 cup beet or cane sugar
1 teaspoon grated lemon rind
½ teaspoon vanilla
½ cup hot water
Confectioners sugar
1 7-ounce jar grape or apple jelly

Sift together flour, baking powder, and salt. Beat eggs in a bowl set in a larger bowl of warm water until light and lemon colored (about 10 minutes). Add sugar gradually, beating continually. Add lemon rind and vanilla. Fold in dry ingredients, a few tablespoonfuls at a time. Add the hot water in a thin but steady stream, folding in. Pour into jelly roll pan, 10 x 15 inches, lined with greased, waxed paper. Bake at 375° F. (moderate oven) for 12 to 15 minutes. Cut crusty edges from cake; turn cake upside down on a clean towel sprinkled with confectioners sugar. Pull off paper, roll cake in towel and cool. Unroll, spread with jelly and re-roll. Sprinkle surface with confectioners sugar.

Remember... it's the fresh ingredients in your home baked recipe that make things taste better; stay fresh longer!

WASHINGTON (AP)—Sen. Smathers has an idea.

The Florida Democrat thinks no one should be allowed to serve on the Supreme Court unless he has previously served at least five years as judge of a lower federal court or a state supreme court.

If his idea had prevailed throughout American history:

1. Only 2 of the 14 chief justices who have presided over the court since its beginning could have held the job. The two—William Howard Taft and Fred M. Vinson—headed the court in this century.

2. Only one of the nine present members of the Supreme Court—Justice Sherman Minton—could be sitting there now. None of the other eight, including Chief Justice Warren, could have qualified under Smathers' proposal.

He offered it in the Senate this week. What was his reason? He said the members of the court should have a "judicial" temperament, meaning previous experience as judges.

He acknowledged that some Supreme Court justices who had never had judicial experience before turned out to be distinguished justices. But some, he said, didn't.

Sen. Morse (D-Ore) challenged him at once to name names, state cases and give a bill of particulars if he didn't think any of the justices in American history hadn't measured up to Smathers' opinion of what a justice should be.

Smathers didn't reply to the challenge.

Never once in his long Senate speech supporting his proposal did Smathers refer to the court decision outlawing racial segregation in the public schools. But several times he repeated a complaint Southerners have been making since the Supreme Court gave its school decision on May 17, 1954.

This is their complaint: That the court overstepped its limits by trying to legislate an end to segregation when it ruled segregation was unlawful. Smathers didn't say this directly. He referred to "legislation" by the court.

Sen. Neuberger (D-Ore) asked Smathers if it wouldn't similarly be "advisable" not to let anyone become president unless he had served as a state governor or a member of Congress unless he had served in a state legislature? Neuberger said this seemed as sensible as Smathers' proposal.

Smathers said he didn't think this would be advisable. He said if Supreme Court justices had judicial experience before reaching the high court they wouldn't try to legislate when they got there.

Under questioning by Sen. Potter (R-Mich), Smathers agreed that some of the best legal minds in the country are in the heads of lawyers who never sat on a bench and his proposal would bar them from ever sitting on the Supreme Court.

The 12 of the 14 chief justices who couldn't have met Smathers' qualifications were: John Jay, John Rutledge, Oliver Ellsworth, John Marshall, Roger B. Taney, Salmon P. Chase, Morrison R. Waite, Melville W. Fuller, Edward D. White, Charles Evans Hughes, Harlan F. Stone and Earl Warren.

Smathers wouldn't make his proposal, if it became law, apply to present justices but only to those appointed in the future. It's a proposal which seems to have a wonderful chance of getting no place.

Mental Health Chairman Named

COLUMBUS (AP)—Walter G. Nord, president of the Ohio Mental Health Assn., has announced the appointment of Col. Gustav Hirsch of Columbus as chairman of Mental Health Month.

Nord said yesterday a drive for funds is starting this week and will be carried on in 48 counties. Mental Health Month is observed nationally during May.

Mental Disease Specialist Says New Practices Failing

CHICAGO (AP) — A specialist in control of mental diseases says that psychiatry, shock treatments, brain surgery and drugs have failed to solve the problem of mental illness.

Dr. Percival Bailey, director of the Illinois State Psychiatric Institute of Chicago, lashed out at many modern techniques for treating mental states as dangerous or ineffectual.

In a speech before the American Psychiatric Assn., Dr. Bailey, a former specialist in brain surgery, said:

"The task of psychiatrists, it seems to me, is to get back in the asylums and laboratories, which they are so proud to have left behind them, and prove, by established criteria, that their concepts have scientific validity."

Dr. Bailey said he has been "frankly appalled" by the results of lobotomy, a surgical procedure for treating certain mental conditions by severing nerve pathways to a frontal lobe of the brain.

* * *

"THE MOST favorable result seems to be that the disturbed patients, after lobotomy, are easier to handle in the hospital," he said.

He said lobotomy has been forbidden by the Soviet Union and severely criticized by Pope Pius XII and is rapidly disappearing from American practice.

Dr. Bailey said insulin shock treatment in certain mental states is "less dramatic and brutal" than electric shock treatment "but its effects are also transitory in schizophrenics and there is a temptation to use it, as in the case with lobotomy, as another substitute for administration, more personnel and larger budgets." He added:

"Moreover this treatment sometimes leaves organic syndromes more serious than broken backs, such as the loss of memory or impulsive and violent behavior."

He said that "lately the crowd has rushed to a new series of drugs" such as the tranquilizers, rauwolfa and serpentina, but he added that there have been similar enthusiasms concerning other drugs.

Drugs, he said, do not seem to be the answer to the problem.

He predicted schizophrenia, one of the abnormal mental states most resistant to treatment, will be solved by the biochemist.

Throwing Of Rock Said Only Effort To Help 2 Nuns

OGDEN, Utah (AP)—Thomas Dawson, 39, says he was only trying to help when he threw a rock at two nuns.

He told City Judge Charles Sneddon he tossed the rock because the women were checking their gas tank to see if it was full and had just struck a match to see better.

"I wanted to warn them of the danger," he said. "It was quite a large rock. It was the only one I could find. It missed the car and struck a man who was quarreling with his wife. The rock glanced off his head and through a grocery store window."

At this, Dawson said, the man got "upset and came over to make trouble."

Judge Sneddon sentenced Dawson to 30 days in city jail on a disorderly conduct charge.

First Of 8 Defiance Defendants Guilty

DEFIANCE, Ohio (AP)—The first of eight persons to face trial on narcotics charges has been found guilty of selling marijuana. He is Benito B. Sanchez, 19, of Defiance.

The jury of nine men and three women deliberated two hours and 45 minutes before reaching its verdict.

Common Pleas Judge Dan Batt delayed sentencing to allow time for a pre-sentence investigation.

The second of the group, Alberto C. Flores, 24, of Defiance, indicted on three counts of selling marijuana and two of possession, is scheduled for trial Monday.

Light Lunch Order Yields 2 Arrests

BALTIMORE (AP)—Two detectives entered a short-order restaurant and asked for light lunch. They weren't talking about franks and beans or ham and eggs. They weren't offered them either. So the owner, James Kondelis, 58, and his son Gus, 28, were charged with bookmaking. Light Lunch was a nag running in the third race at Laurel. Came in fourth.

Women To Handle City Park Meters

SCOTTSBLUFF, Neb. (AP) — Scottsbluff is going to turn the job of ticketing parking meter violators over to the ladies. City Manager Carsten Leikvold Wednesday night said two women will be hired to replace the one policeman who now handles the job. Announcing the decision, Leikvold soberly said, "Applicants should be quite healthy. Considerable walking is required."

Fenn College Lops 42 Years Off Age

CLEVELAND (AP) — Fenn College is 42 years "younger" today.

Its board of trustees decided yesterday the institution was founded in 1923 instead of 1881.

"We could find no real reason for the 1881 date," said President G. Brooks Earnest. "We don't know why it was selected, when it was selected or by whom."

He said the college could trace its origin back to 1870 when courses were first offered when Fenn was a YMCA affiliate. But the board decided on 1923 when college level courses with a degree program were started.

Woman Accused Of Slaying Mate

LOS ANGELES (AP)—A 65-year-old woman is held on suspicion of murder in the hammer killing of her crippled husband.

Police said Mrs. Agnes Leslie told them she suddenly decided Wednesday to kill her husband Charles, 60, "because he needed to be waited on all the time, and I'm going blind and couldn't help him any more."

Officers said Mrs. Leslie slashed her throat and wrists with a razor and was found wandering outside their apartment by a neighbor. Doctors said she probably will recover.

5th East Liverpool Cop Quits Position

EAST LIVERPOOL (AP)—Donald E. Goodballet yesterday became the fifth member of the East Liverpool police force to quit as a result of a Columbiana County grand jury criticism of the police operation.

Goodballet was given a 30-day suspension after the jury report said he had been intoxicated on duty, frequented gambling places and borrowed or tried to borrow money from gamblers.

'Hidden Epilepsy' Total Ranked High

LOS ANGELES (AP)—A psychiatrist says 20 per cent of the U.S. population may be suffering from "hidden epilepsy."

Many persons who have momentary mental blackouts or dimouts may be suffering from the disorder, Dr. Charles L. Yeager of the University of California said.

Fidgety children and adults who complain of nervous disorders are likely to have the ailment, he said. Mostly it is nondisabling, but in some instances it can develop into little attacks of real epilepsy, he told the California Medical Assn.

Brain wave recordings can disclose the condition, he said.

COLUMBUS (AP)—The Ohio Foundation of Independent Colleges has named Dr. Lloyd L. Ramseyer, president of Bluffton College, as its new chairman.

Racial Problem Seen As Key To 1956 Election

Some Democrats Said Urging Give-'em-Hell Campaign By Radical

WASHINGTON (AP) — The most serious problem in the coming presidential election is how to keep the political struggle from adding to the already solemn divisions over racial segregation in public schools.

That is the belief of James (Scotty) Reston, chief Washington correspondent for the New York Times. The Pulitzer Prize-winning reporter declares that the race question must be debated because great social, political and philosophical issues are involved. He continues:

Both parties have to write platforms which cannot ignore these things. Congressmen seeking re-election in the great cosmopolitan areas of the North will clearly be bidding for the support of Negro voters. Reporters will be asking questions about it, and thus it will be constantly in the headlines.

How the issue is debated, however, and by whom are extremely important. If one or the other candidate sets out to exploit it for purely partisan objectives, the campaign can do irreparable harm. If, on the other hand, it is debated fairly and responsibly, it may be possible to avoid great damage.

The struggle for power in the Democratic primary, elections is moving toward a crisis on this issue. Adlai E. Stevenson, the moderate in the race, has fared badly. Gov. Averell Harriman of New York, who has consistently argued against the moderate approach to the campaign and has specifically advocated using financial pressure against Southern states that refuse to obey the Supreme Court order, is moving up in the race.

There is more sympathetic talk about Harriman among the intellectuals and political strategists in the Democratic party here now than ever before. It is not only Harry S. Truman, Charles Brannan, Oscar Chapman and Carmine DeSapio who are boosting Harriman, but many of the Democratic egheads as well.

What they are saying is this: Eisenhower cannot be defeated in a popularity contest. He has taken over the middle ground of American politics. Therefore, no moderate can defeat him. Only if the party dramatizes every available issue in a give-'em-hell campaign can the Democrats regain the White House.

Those who favor this strategy are talking more and more about Harriman. They know he is unacceptable to the South, and that his policy of denying federal school-building funds to states that defy the racial-integration order would, if pressed, drive the Southern states out of the Democratic convention in Chicago next August. But while they hope to avoid this, many of them are willing to risk it in the belief that this is the only way to beat the Republicans.

This, of course, is the normal way of politicians. Personal and party interests usually find ways of rationalizing tactics that are not in the national interest. The only new aspect of it is that many of the intellectuals who were so enthusiastic about Stevenson's high-minded approach to politics in 1952 are now joining in the move to change him or dump him for Harriman.

Have you ever seen an egghead with feet of clay? The political woods are now full of them. The intellectuals were positively delirious about Stevenson in 1952. Here was something new in this generation of American politics: the arrival of an eloquent man of reason to the top of the Democratic party.

The campaign is demonstrating, however, that political eggheads, after all, are very much like the old-fashioned politicians they love to criticize. They still admire Stevenson's eloquence and his fair-minded approach, but many of them in the upper rungs of the party admire victory more.

It is true that Stevenson has contributed to the disenchantment of many of his former supporters. He has not waged an effective primary campaign, but the main charge against him is not that he has been wrong in his moderate approach but merely that he has lost.

Therefore, the movement has set in for a more radical candidate who will exploit the grievances of the Republican farmers and consolidate the Democratic strength among the Negroes and other workers in the great Northern cities.

Such a strategy would probably do little damage in the election debate on farm policy, or foreign policy, but the racial segregation issue is another thing. This is the most serious social question in America since the Civil War. It involves the integrity of the Supreme Court. It involves fundamental questions about the future of our whole society and its relations with other nations. Therefore, it must be discussed, but it is one thing to discuss it fairly on its merits, no matter how divergent the views, and quite another thing to inflame and exploit it for partisan advantage.

Besides, even on the ground of expediency, the give-'em-hell approach is hazardous. For, in the end, the voters may not be amused by the image of irresponsible politicians playing fast and loose with such an issue.

Lausches Return From California

COLUMBUS (AP)—Gov. and Mrs. Frank J. Lausche yesterday returned by plane to Columbus from California.

Mrs. Lausche has been visiting an ill relative in San Jose for several weeks. The governor presented writing awards to California college students in a contest sponsored by the Forest Lawn Federation.

"I didn't do any politicking," Lausche said when asked about reports that his West Coast trip had political overtones.

Attorney General Defines Laws On Dependent Children

COLUMBUS, Ohio (AP) — Atty. Gen. C. William O'Neill explained today how juvenile courts should determine county responsibility for the care and medical treatment of dependent and neglected children.

A ruling said courts should follow the same statutory definition of "legal settlement" or residence qualifications—used to fix county responsibility under Ohio poor relief laws.

An opinion to Prosecutor John S. Bath of Fayette County said the term 'settlement" had been used in Ohio for more than a century in poor relief laws to determine which local subdivisions should support indigents.

"Because the term is without legal significance except as defined in such laws," O'Neill said "the Legislature is presumed to have intended that definition be applied in the laws relating to dependent and neglected children."

The truck trailer is being redesigned as the result of wind tunnel tests which proved that streamlining of these large freight carriers substantially increased mileage from fuel.

Group Apologizes To Dem Chieftain

WASHINGTON (AP) — The U. S. Chamber of Commerce has apologized to Democratic National Chairman Paul Butler for the storm of boos he received during a political debate at the chamber's annual meeting.

President Boyd Campbell sent a letter extending the chamber's "sincere apology" and "profound regret" for Tuesday's incident.

The booing came when Butler told the more than 3,000 chamber delegates, meeting in Constitution Hall, that the Republican party was the beneficiary of "vested wealth."

Racial Problem Seen As Key To 1956 Election

Some Democrats Said Urging Give-'em-Hell Campaign By Radical

WASHINGTON (AP) — The most serious problem in the coming presidential election is how to keep the political struggle from adding to the already solemn divisions over racial segregation in public schools.

That is the belief of James (Scotty) Reston, chief Washington correspondent for the New York Times. The Pulitzer Prize-winning reporter declares that the race question must be debated because great social, political and philosophical issues are involved. He continues:

Both parties have to write platforms which cannot ignore these things. Congressmen seeking re-election in the great cosmopolitan areas of the North will clearly be bidding for the support of Negro voters. Reporters will be asking questions about it, and thus it will be constantly in the headlines.

How the issue is debated, however, and by whom are extremely important. If one or the other candidate sets out to exploit it for purely partisan objectives, the campaign can do irreparable harm. If, on the other hand, it is debated fairly and responsibly, it may be possible to avoid great damage.

The struggle for power in the Democratic primary, elections is moving toward a crisis on this issue. Adlai E. Stevenson, the moderate in the race, has faced badly. Gov. Averell Harriman of New York, who has consistently argued against the moderate approach to the campaign and has specifically advocated using financial pressure against Southern states that refuse to obey the Supreme Court order, is moving up in the race.

There is more sympathetic talk about Harriman among the intellectuals and political strategists in the Democratic party here now than ever before. It is not only Harry S. Truman, Charles Brannan, Oscar Chapman and Carmine DeSapio who are boosting Harriman, but many of the Democratic egheads as well.

What they are saying is this: Eisenhower cannot be defeated in a popularity contest. He has taken over the middle ground of American politics. Therefore, no moderate can defeat him. Only if the party dramatizes every available issue in a give-'em-hell campaign can the Democrats regain the White House.

Those who favor this strategy are talking more and more about Harriman. They know he is unacceptable to the South, and that his policy of denying federal school-building funds to states that defy the racial-integration order would, if pressed, drive the Southern states out of the Democratic convention in Chicago next August. But while they hope to avoid this, many of them are willing to risk it in the belief that this is the only way to beat the Republicans.

This, of course, is the normal way of politicians. Personal and party interests usually find ways of rationalizing tactics that are not in the national interest. The only new aspect of it is that many of the intellectuals who were so enthusiastic about Stevenson's high-minded approach to politics in 1952 are now joining in the move to change him or dump him for Harriman.

Have you ever seen an egghead with feet of clay? The political woods are now full of them. The intellectuals were positively delirious about Stevenson in 1952. Here was something new in this generation of American politics: the arrival of an eloquent man of reason to the top of the Democratic party.

The campaign is demonstrating, however, that political eggheads, after all, are very much like the old-fashioned politicians they love to criticize. They still admire Stevenson's eloquence and his fair-minded approach, but many of them in the upper rungs of the party admire victory more.

It is true that Stevenson has contributed to the disenchantment of many of his former supporters. He has not waged an effective primary campaign, but the main charge against him is not that he has been wrong in his moderate approach but merely that he has lost.

Therefore, the movement has set in for a more radical candidate who will exploit the grievances of the Republican farmers and consolidate the Democratic strength among the Negroes and other workers in the great Northern cities.

Such a strategy would probably do little damage in the election debate on farm policy, or foreign policy, but the racial segregation issue is another thing. This is the most serious social question in America since the Civil War. It involves the integrity of the Supreme Court. It involves fundamental questions about the future of our whole society and its relations with other nations. Therefore, it must be discussed, but it is one thing to discuss it fairly on its merits, no matter how divergent the views, and quite another thing to inflame and exploit it for partisan advantage.

Besides, even on the ground of expediency, the give-'em-hell approach is hazardous. For, in the end, the voters may not be amused by the image of irresponsible politicians playing fast and loose with such an issue.

Group Apologizes To Dem Chieftain

WASHINGTON (AP) — The U. S. Chamber of Commerce has apologized to Democratic National Chairman Paul Butler for the storm of boos he received during a political debate at the chamber's annual meeting.

President Boyd Campbell sent a letter extending the chamber's "sincere apology" and "profound regret" for Tuesday's incident.

The booing came when Butler told the more than 3,000 chamber delegates, meeting in Constitution Hall, that the Republican party was the beneficiary of "vested wealth."

Lausches Return From California

COLUMBUS (AP)—Gov. and Mrs. Frank J. Lausche yesterday returned by plane to Columbus from California.

Mrs. Lausche has been visiting an ill relative in San Jose for several weeks. The governor presented writing awards to California college students in a contest sponsored by the Forest Lawn Federation.

"I didn't do any politicking," Lausche said when asked about reports that his West Coast trip had political overtones.

Attorney General Defines Laws On Dependent Children

COLUMBUS, Ohio (AP) — Atty. Gen. C. William O'Neill explained today how juvenile courts should determine county responsibility for the care and medical treatment of dependent and neglected children.

A ruling said courts should follow the same statutory definition of "legal settlement" or residence qualifications—used to fix county responsibility under Ohio poor relief laws.

An opinion to Prosecutor John S. Bath of Fayette County said the term 'settlement" had been used in Ohio for more than a century in poor relief laws to determine which local subdivisions should support indigents.

"Because the term is without legal significance except as defined in such laws," O'Neill said "the Legislature is presumed to have intended that definition be applied in the laws relating to dependent and neglected children."

HEADLINE APPRAISALS

THE EXECUTIVE committee of the Headline Writers Association, single-column division, has issued its quadrennial report on the political scene.

It finds no candidate running for Pesident whose qualifications match those of the late Senator Taft.

The one-and-only qualification for political office, so far as the HWA is concerned, is that the candidate's last name be short enough to fit in a single-column headline and leave room in the same line for a verb.

Perhaps never again will there be a President with a name as well-suited to this purpose as Taft. However, the association is willing to endorse anyone with no more than six letters in this name — or even eight if several of them are thin letters like i, t, or l.

Truman was just a shade too long (m is a wide letter) but in comparison with Eisenhower the headline writers look back on the Truman regime with nostalgia. They like Ike but some persons regard that nickname as undignified.

Here is the HWA rating of possible presidental candidates (the lower the letter count, the better the man): Ike 2½; Nixon 4½; Lausche 7; Kefauver 7½; Knowland and Harriman, 8 each; Stevenson and Symington, 8½ each, and Eisenhower 10.

In the last 28 years, U. S. Presidents have averaged a shade over 7½.

Our copy of the HWA report was signed by I. I. Kit, president, and J. J. Ig, secretary.

BETTING ON PEACE

THE UNITED STATES is betting heavily that there will be no war with Russia.

That is the significance of the announcement by Commerce Secretary Sinclair Weeks that the government is freeing more than 700 peaceful products for shipment to Russia and its European satellites.

If war were inevitable within a few years, the wisest policy would be to have an absolute ban. This is the second such relaxation since the Geneva Conference last Summer and shows clearly that Washington is placing its wagers that another world war isn't in the offing.

True, it might seem that the Russians could hardly bolster their war effort much by importing such newly-freed items as beverages, castor oil, candles, drugs, rubber products, toys, writing paper, linen handkerchiefs, milk of magnesia, and brooms.

But from the war strategist's point of view every Russian factory freed from producing such items can be turned to more warlike uses.

The ban relaxation illustrates the effect of the rising clamor of allies who seek trade with Russia. The embargo was not lifted as far as Red China was concerned. But under pessure from Japan and other Asian allies, this move is doubtless inevitable eventually.

'TRAVEL BUREAUS'

THOSE WHO have wondered what persons connected with U. S. embassies do to occupy their time were given part of the answer by Senator Mansfield of Montana, who was appealing to the Senate in behalf of increased budgets for embassies.

"Very Important Persons" — not all of them Congressmen—travel abroad in such numbers that appropriations for embassies are depleted, Senator Mansfield said. He cited Paris, where the State Department has found it necessary to establish a full time office to assist "VIPs." In 1955 the Paris embassy was visited by more than 2,000 legislators and other government officials, their wives and families, and more than 900 private individuals considered important.

Frequently the traveler must be met at the airport or dock, escorted to a hotel where reservations have been made, assisted in meeting local officials or embassy brass, aided in obtaining information, etc. Then he must be put aboard transportation facilities for travel to his next stop.

If this sounds as if embassies have taken over the duties of travel bureaus, they probably have.

It is averred that some Americans have become fearful of expressing themselves, but there always were husbands of that type.

George E. Sokolsky's

These Days

Back in 1951, only 693 Americans took written examinations for jobs in the State Department, but in 1955, the number rose to 7,402. When I came across this comparison, it occurred to me that the Foreign Service, which had had such a bad reputation for being a refuge for men and women of queer habits and queer ideas, must have done a very thorough job of house-cleaning to make itself so attractive.

The Foreign Service has been more self-conscious than some other departments of government to rid itself of those who embarrassed their government either by their habits or their ideas. Scott McLeod, who is in charge of personnel and recruitment, has often been attacked but the justification for his work lies in the increasing popularity of State Department work as a career. The figures indicate that young people who go in for the Foreign Service are either no longer kidded about the association or no longer mind it.

There has been too great an emphasis on scientfiic and engineering training for young people in this period when there is a great need for scientists and engineers. These things run in fashions. When I was at college long ago, law and medicine were the fashionable careers.

Nowadays the young fellows go in for science and engineering of one kind or another and although the colleges make a lot of noise about the humanities, the distribution of subjects and points is such that when a young fellow has taken his majors and the supporting subjects, he has little time left for an education. He is being trained, not educated. He is being trained for a job, trained to earn a living not educated to think.

It must be a trying administrative problem in the universities to divide the time so that a scientist will also read history and philosophy and that a pre-med student will know something about government and economics and languages. It may, because of the tremendous volume of data in all scientific fields, become necessary to make the college courses five or six years instead of four, the first three years devoted to education and the last two or three to training.

Maybe this is impractical and too costly, but it also would appear to be impractical to put a man through four years of mostly specialized training with only a small dose of cultural courses. The proletarization of the college-educated citizen surely does not provide the leadership the country needs as much as it needs scientists and engineers.

The Foreign Service is recruited principally for men and women in the colleges who take cultural courses, have facility in foreign languages and who know something of history and literature.

It is a fairly pleasant way of life if one likes to travel, to live in unusual places, to cultivate good taste in food and wine and a capacity to converse in a mature manner on a variety of topics.

SYNOPSIS

Mrs. May Featherstone, wealthy English dowager, recognizes a passenger and senses trouble as she boards the "S.S. Caribbean" bound from England to Jamaica. Valerie Allson, a pretty, redhaired nurse, and Dirk Hanson, who was engaged to Mrs. Featherstone's daughter, Eileen, at the time of her death in an auto accident, accompany her. Val is earning her passage by caring for Mrs. Featherstone, an invalid by imaginary ills. Dirk is overly attentive to Mrs. Featherstone, hoping to be considered in her will. Eileen's earlier romance had been broken up by her mother, and her lover later becomes a doctor. Mrs. Featherstone becomes ill but refuses to see the ship's surgeon. Val meets the man that Mrs. Featherstone had noticed among the passengers—Bruce Harridan—and he is now in the uniform of the ship's surgeon. Val learns that they will both be working at the same new hospital near Montego Bay after the voyage. She also learns that Dr. Harridan was Eileen's lover, and that he had threatened to kill Mrs. Featherstone at the time she wrecked their romance. Dirk and Val become good friends but Mrs. Featherstone resents Dirk's attentions to Val. Dr. Harridan tells Val that he threatened Mrs. Featherstone in a fit of rage, and would now like to apologize to her. Val becomes strongly attracted to Dr. Harridan. When Dr. Harridan insinuates Dirk did not love Eileen and was only after her mother's money, Val becomes annoyed at him. Dirk tries to explain to Val how he really feels toward Mrs. Featherstone, and his relationship with Eileen.

CHAPTER 12

VAL DREW away from Dirk and leaned one bare elbow on the railing.

"I'm not her doctor—how can *I* know?"

"But I'm asking you what you *think*," he insisted.

"I don't think Mrs. Featherstone is as ill as she believes she is," she agreed.

"Thank you, Val, for being honest." He touched her hand briefly. "Frankly I think there's very little wrong with the old girl, physically, that is."

"You *really* care about her?" Again she felt that her voice sounded childishly eager.

He nodded. In the moonlight she saw that his face was grave. "I admit it may be difficult to believe. She's a domineering woman, an old tyrant, if you like, but also she's a desperately unhappy woman. When my mother died she was kind to me, very kind. She upbraided me and grumbled at me, but she was kind. I think, apart from Eileen, she loved me more than anyone else. And then Eileen died and she was alone. Very much alone. That she was rich didn't help her; in fact, it made her lonelier than ever, and suspicious of everyone who tried to be nice to her."

"But she isn't suspicious of you?" she asked in the pause.

"I thought I'd explain," he said in a suddenly tired voice. "But you want to suspect the worst of my affection for Aunt May as everybody does."

"But all this has nothing to do with me!" It was as though the words were torn from her.

"Oddly, it has," he said quietly. "You see for some foolish reason I don't want you to think badly of me."

She looked up at him and her heartbeat seemed to quicken. "What do you want me to think?" she asked slowly.

"I want you to think of happiness," he said surprisingly.

"Happiness?"

He nodded. "Happiness." He repeated it. "I haven't been very happy in my life. I spent most of my time at Hartnell Wood Grange. Eileen and I were good friends, but that was all."

"You didn't love Eileen Featherstone?"

"No," he said. "I didn't love her."

"But you became engaged to her?"

"Yes," he agreed. "Aunt May was genuinely ill at that time. I thought it might help her to get better."

"You mean you only got engaged to Eileen because of your—affection for her mother?" she asked incredulously.

"Oh no," he said. "It was for Eileen's sake as well."

"I'm afraid I don't understand," she said at last.

He smiled slightly. "Don't try to. It's pretty difficult to understand."

"You mentioned happiness," she said after a pause. "You believe you're giving Mrs. Featherstone happiness now?"

"Of course." His voice was easy and agreeable once more. "That's what I've been trying to do since Eileen died. Giving the old girl even a semblance of happiness."

"I think you've succeeded pretty well." Her voice was dry.

"Thank you, Nurse." His gray eyes held a hard challenge. "Despite all I've said obviously you think what other people think."

"And that people should think that doesn't upset you?" Her voice trembled. Surprisingly she found she was very close to tears.

He shrugged. "I've never cared much what people thought. I humor Aunt May and look after her, as a son might."

"I admit you give her the only happiness she seems capable of appreciating," she said slowly. "You must be a magician."

"A magician?" He smiled slightly. "A man who brings rabbits out of a top hat?" He paused and his voice hardened, "When she dies her relatives won't use such a kind word. They won't say I've brought rabbits out of the top hat, but a fortune."

"You know Mrs. Featherstone is going to leave you her money when she dies?" she asked in a shaken, breathless voice.

He shrugged his thin shoulders. "Why not?" But I hope she'll live many years to enjoy her life before that happens. The poor old dear was looking forward to this trip so much."

"You mean until she discovered that Doctor Harridan was on board?"

"Yes," he agreed. "They had a frightful row and he threatened her, as you know."

"But ne was genuinely in love with Eileen," she said. "You can't really blame him for saying what he did. Obviously Mrs. Featherstone put an end to their romance and you stepped in, even though you *admit* you weren't in love with her. It wasn't a very noble gesture on your part, or was it?"

He was standing very straight, and his gray eyes were looking down at her sadly. "Poor little girl," he said finally. "You're very young and rather naive, I'm afraid. There's so much you don't understand. But," his voice, his whole mood changed abruptly. "I've kept you talking out here too long. Let's go down to dinner."

"Of course." All her former sense of gaiety was gone. For some reason she felt desperately unhappy, as though in some way she'd made a fool of herself.

Migraine Headaches Diminish After Fifty

By HERMAN N. BUNDESEN, M.D.

SOMETIMES there seems to be an advantage in getting old. While some of the body's machinery begins to run down as we pass the half century mark, certain ailments which we might have had throughout our earlier life tend to clear up.

Migraine headaches are an example.

This disorder which usually begins around the age of puberty tends to diminish after the age of 50. Still, you can't wait until you outgrow migraine. You have to do something about that miserable pain a lot earlier.

Emotionally Unstable

Women appear to be more susceptible to migraine than are men. And the disorder is particularly likely to be found in conscientious or emotionally unstable persons. Heredity also appears to be a factor.

Individual cases may follow eyestrain, fatigue, emotional strain, the menses or ovulation. Eating certain foods may cause allergic migraine.

Untreated Attack

An untreated attack may last for several hours or even for days. Some victims experience several attacks a week, others may have only one or two a year. Generally, attacks diminish during pregnancy. And they may cease entirely after the menopause, but this, of course, is not true in every case.

Once you've had an attack, you should try to prevent another by avoiding nervous and emotional disturbances whenever possible. Keep regular hours, get plenty of sleep and avoid eyestrain. If you wear glasses, have them checked to make sure you have the right prescription.

Keep your bowels normal by eating the proper foods, not by taking laxatives. And be alert for an allergy to any specific food which might bring on an attack.

At the first symptoms of a migraine headache, you might lie down in a quiet, darkened room. Wet cloths, either hot or cold, or a hot water bag or an ice bag, may be applied to your head. Try both heat and cold to determine which is best for relieving the pain.

Tight Bandage

A tight bandage around your head at the forehead might help, too. And you can try plunging your hands into ice water for one minute. Repeat this three times at half hour intervals.

One or two aspirin or empirin compound tablets may bring relief. But it is always best to see your doctor. He has numerous drugs at his disposal, which can bring prompt relief.

HEADLINE APPRAISALS

THE EXECUTIVE committee of the Headline Writers Association, single-column division, has issued its quadrennial report on the political scene.

It finds no candidate running for Pesident whose qualifications match those of the late Senator Taft.

The one-and-only qualification for political office, so far as the HWA is concerned, is that the candidate's last name be short enough to fit in a single-column headline and leave room in the same line for a verb.

Perhaps never again will there be a President with a name as well-suited to this purpose as Taft. However, the association is willing to endorse anyone with no more than six letters in this name — or even eight if several of them are thin letters like i, t, or l.

Truman was just a shade too long (m is a wide letter) but in comparison with Eisenhower the headline writers look back on the Truman regime with nostalgia. They like Ike but some persons regard that nickname as undignified.

Here is the HWA rating of possible presidental candidates (the lower the letter count, the better the man): Ike 2½; Nixon 4½; Lausche 7; Kefauver 7½; Knowland and Harriman, 8 each; Stevenson and Symington, 8½ each, and Eisenhower 10.

In the last 28 years, U. S. Presidents have averaged a shade over 7½.

Our copy of the HWA report was signed by I. I. Kit, president, and J. J. Ig, secretary.

BETTING ON PEACE

THE UNITED STATES is betting heavily that there will be no war with Russia.

That is the significance of the announcement by Commerce Secretary Sinclair Weeks that the government is freeing more than 700 peaceful products for shipment to Russia and its European satellites.

If war were inevitable within a few years, the wisest policy would be to have an absolute ban. This is the second such relaxation since the Geneva Conference last Summer and shows clearly that Washington is placing its wagers that another world war isn't in the offing.

True, it might seem that the Russians could hardly bolster their war effort much by importing such newly-freed items as beverages, castor oil, candles, drugs, rubber products, toys, writing paper, linen handkerchiefs, milk of magnesia, and brooms.

But from the war strategist's point of view every Russian factory freed from producing such items can be turned to more warlike uses.

The ban relaxation illustrates the effect of the rising clamor of allies who seek trade with Russia. The embargo was not lifted as far as Red China was concerned. But under pessure from Japan and other Asian allies, this move is doubtless inevitable eventually.

'TRAVEL BUREAUS'

THOSE WHO have wondered what persons connected with U. S. embassies do to occupy their time were given part of the answer by Senator Mansfield of Montana, who was appealing to the Senate in behalf of increased budgets for embassies.

"Very Important Persons" — not all of them Congressmen—travel abroad in such numbers that appropriations for embassies are depleted, Senator Mansfield said. He cited Paris, where the State Department has found it necessary to establish a full time office to assist "VIPs." In 1955 the Paris embassy was visited by more than 2,000 legislators and other government officials, their wives and families, and more than 900 private individuals considered important.

Frequently the traveler must be met at the airport or dock, escorted to a hotel where reservations have been made, assisted in meeting local officials or embassy brass, aided in obtaining information, etc. Then he must be put aboard transportation facilities for travel to his next stop.

If this sounds as if embassies have taken over the duties of travel bureaus, they probably have.

It is averred that some Americans have become fearful of expressing themselves, but there always were husbands of that type.

George E. Sokolsky's

These Days

Back in 1951, only 693 Americans took written examinations for jobs in the State Department, but in 1955, the number rose to 7,402. When I came across this comparison, it occurred to me that the Foreign Service, which had had such a bad reputation for being a refuge for men and women of queer habits and queer ideas, must have done a very thorough job of house-cleaning to make itself so attractive.

The Foreign Service has been more self-conscious than some other departments of government to rid itself of those who embarrassed their government either by their habits or their ideas. Scott McLeod, who is in charge of personnel and recruitment, has often been attacked but the justification for his work lies in the increasing popularity of State Department work as a career. The figures indicate that young people who go in for the Foreign Service are either no longer kidded about the association or no longer mind it.

There has been too great an emphasis on scientfiic and engineering training for young people in this period when there is a great need for scientists and engineers. These things run in fashions. When I was at college long ago, law and medicine were the fashionable careers.

Nowadays the young fellows go in for science and engineering of one kind or another and although the colleges make a lot of noise about the humanities, the distribution of subjects and points is such that when a young fellow has taken his majors and the supporting subjects, he has little time left for an education. He is being trained, not educated. He is being trained for a job, trained to earn a living not educated to think.

It must be a trying administrative problem in the universities to divide the time so that a scientist will also read history and philosophy and that a pre-med student will know something about government and economics and languages. It may, because of the tremendous volume of data in all scientific fields, become necessary to make the college courses five or six years instead of four, the first three years devoted to education and the last two or three to training.

Maybe this is impractical and too costly, but it also would appear to be impractical to put a man through four years of mostly specialized training with only a small dose of cultural courses. The proletarization of the college-educated citizen surely does not provide the leadership the country needs as much as it needs scientists and engineers.

The Foreign Service is recruited principally for men and women in the colleges who take cultural courses, have facility in foreign languages and who know something of history and literature.

It is a fairly pleasant way of life if one likes to travel, to live in unusual places, to cultivate good taste in food and wine and a capacity to converse in a mature manner on a variety of topics.

SYNOPSIS

Mrs. May Featherstone, wealthy English dowager, recognizes a passenger and senses trouble as she boards the "S.S. Caribbean" bound from England to Jamaica. Valerie Allson, a pretty, redhaired nurse, and Dirk Hanson, who was engaged to Mrs. Featherstone's daughter, Eileen, at the time of her death in an auto accident, accompany her. Val is earning her passage by caring for Mrs. Featherstone, an invalid by imaginary ills. Dirk is overly attentive to Mrs. Featherstone, hoping to be considered in her will. Eileen's earlier romance had been broken up by her mother, and her lover later becomes a doctor. Mrs. Featherstone becomes ill but refuses to see the ship's surgeon. Val meets the man that Mrs. Featherstone had noticed among the passengers—Bruce Harridan—and he is now in the uniform of the ship's surgeon. Val learns that they will both be working at the same new hospital near Montego Bay after the voyage. She also learns that Dr. Harridan was Eileen's lover and that he had threatened to kill Mrs. Featherstone at the time she wrecked their romance. Dirk and Val become good friends but Mrs. Featherstone resents Dirk's attentions to Val. Dr. Harridan tells Val that he threatened Mrs. Featherstone in a fit of rage, and would now like to apologize to her. Val becomes strongly attracted to Dr. Harridan. When Dr. Harridan insinuates Dirk did not love Eileen and was only after her mother's money, Val becomes annoyed at him. Dirk tries to explain to Val how he really feels toward Mrs. Featherstone, and his relationship with Eileen.

CHAPTER 12

VAL DREW away from Dirk and leaned one bare elbow on the railing.

"I'm not her doctor—how can *I* know?"

"But I'm asking you what you *think*," he insisted.

"I don't think Mrs. Featherstone is as ill as she believes she is," she agreed.

"Thank you, Val, for being honest." He touched her hand briefly. "Frankly I think there's very little wrong with the old girl, physically, that is."

"You *really* care about her?" Again she felt that her voice sounded childishly eager.

He nodded. In the moonlight she saw that his face was grave. "I admit it may be difficult to believe. She's a domineering woman, an old tyrant, if you like, but also she's a desperately unhappy woman. When my mother died she was kind to me, very kind. She upbraided me and grumbled at me, but she was kind. I think, apart from Eileen, she loved me more than anyone else. And then Eileen died and she was alone. Very much alone. That she was rich didn't help her; in fact, it made her lonelier than ever, and suspicious of everyone who tried to be nice to her."

"But she isn't suspicious of you?" she asked in the pause.

"I thought I'd explain," he said in a suddenly tired voice. "But you want to suspect the worst of my affection for Aunt May as everybody does."

"But all this has nothing to do with me!" It was as though the words were torn from her.

"Oddly, it has," he said quietly. "You see for some foolish reason I don't want you to think badly of me."

She looked up at him and her heartbeat seemed to quicken. "What do you want me to think?" she asked slowly.

"I want you to think of happiness," he said surprisingly.

"Happiness?"

He nodded. "Happiness." He repeated it. "I haven't been very happy in my life. I spent most of my time at Hartnell Wood Grange. Eileen and I were good friends, but that was all."

"You didn't love Eileen Featherstone?"

"No," he said. "I didn't love her."

"But you became engaged to her?"

"Yes," he agreed. "Aunt May was genuinely ill at that time. I thought it might help her to get better."

"You mean you only got engaged to Eileen because of your—affection for her mother?" she asked incredulously.

"Oh no," he said. "It was for Eileen's sake as well."

"I'm afraid I don't understand," she said at last.

He smiled slightly. "Don't try to. It's pretty difficult to understand."

"You mentioned happiness," she said after a pause. "You believe you're giving Mrs. Featherstone happiness now?"

"Of course." His voice was easy and agreeable once more. "That's what I've been trying to do since Eileen died. Giving the old girl even a semblance of happiness."

"I think you've succeeded pretty well." Her voice was dry.

"Thank you, Nurse." His gray eyes held a hard challenge. "Despite all I've said obviously you think what other people think."

"And that people should think that doesn't upset you?" Her voice trembled. Surprisingly she found she was very close to tears.

He shrugged. "I've never cared much what people thought. I humor Aunt May and look after her, as a son might."

"I admit you give her the only happiness she seems capable of appreciating," she said slowly. "You must be a magician."

"A magician?" He smiled slightly. "A man who brings rabbits out of a top hat?" He paused and his voice hardened, "When she dies her relatives won't use such a kind word. They won't say I've brought rabbits out of the top hat, but a fortune."

"You know Mrs. Featherstone is going to leave you her money when she dies?" she asked in a shaken, breathless voice.

He shrugged his thin shoulders. "Why not?" But I hope she'll live many years to enjoy her life before that happens. The poor old dear was looking forward to this trip so much."

"You mean until she discovered that Doctor Harridan was on board?"

"Yes," he agreed. "They had a frightful row and he threatened her, as you know."

"But he was genuinely in love with Eileen," she said. "You can't really blame him for saying what he did. Obviously Mrs. Featherstone put an end to their romance and you stepped in, even though you *admit* you weren't in love with her. It wasn't a very noble gesture on your part, or was it?"

He was standing very straight, and his gray eyes were looking down at her sadly. "Poor little girl," he said finally. "You're very young and rather naive, I'm afraid. There's so much you don't understand. But," his voice, his whole mood changed abruptly. "I've kept you talking out here too long. Let's go down to dinner."

"Of course." All her former sense of gaiety was gone. For some reason she felt desperately unhappy, as though in some way she'd made a fool of herself.

"Mary Haworth's Mail"

DEAR MARY HAWORTH: I am only an aunt, it is true; but I have observed, and read about, and listened to, quite a few young mothers. And I have learned that often, when these young women begin to talk of getting a job, it is because they've been keeping their nose too close to the grindstone at home. Constant child care has got their nerves on edge.

Thus I should like to say a few words to your correspondent on March 23, who can't win her husband's consent to becoming a wage earner. He says her place is at home with the child. Your advice was sensible, too. You explained why she ought to thank Providence for any domestic arrangement, however humble, that permits her to supervise and share her child's experiences, in the crucially important pre-school years, when the foundations of character are being laid.

For your correspondent's benefit, may I suggest: 1. Plan ahead for free periods each week—say, one, or, better, two afternoons a week—when a baby sitter or a relative takes over. Expect to have fun during this relief period. You may go out; or you may stay in; but let the substitute keep baby out of trouble. You will return to duty refreshed.

2. Think of homemaking as a real career, which it certainly is, one that challenges both mind and heart. It calls for a wide variety of coordinated skills, in cooking, marketing, budgeting, child training and good neighbor effectiveness.

3. Get acquainted with other young mothers in your environment, for an exchange of ideas, and perhaps of mutual services. You might take turns baby-sitting, or perhaps even for a cooperative play school or nursery school. And this would relieve one bugaboo of young motherhood, namely, the isolation from other adults.

Finally, remember that the bet ter housewife you are, the further your husband's money will stretch, and the prouder he will be of you —and of himself, in being married to you.

E. D.

DEAR E. D.: Your specific suggestions are sound. They show that you do have a sympathetic grasp of the child-rearing assignment. And, by implication, you second my notion that, in the main, a mother's contribution to family teamwork is probably most valuable, if made in terms of being a homemaker rather than wage-earner.

The secret of being a constructive homemaker is, simply, to make friends with the job, I think. As one young mother reflected recently, in my hearing: "At first the whole think overwhelms you. Later, as you accept the fact that you aren't footloose, and get adjusted to the daily groove, you find order emerging; and you have time for a number of recreations that hadn't occurred to you before."

When I said, "For instance?" she explained: "Well, painting and gardening are my sidelines at present—when the children are napping." And she went on to tell of the fun and satisfaction she has, getting results that are adding up.

College Groups Booming DiSalle

TOLEDO (AP) — Campaign headquarters for Michael DiSalle, Democratic gubernatorial aspirant, has announced the formation of "Student Voters for DiSalle" in nine Ohio colleges.

Virgil Musser, Wooster College pre-law student and football player, was named president of the group.

Chairman at the universities and colleges are Marion Moser, Kent State, Thomas J. Freeman, John Carroll; Richard Kennedy, Western Reserve; Al T. Cincione, Xavier; Jerry McCormick, Otterbein; James McLaughlin, Wooster; Richard Getschman, Steubenville; Jack Schwind and Ralph Palmer, Defiance, and Conrad Radwanski, Bowling Green.

Cincy Police Still Baffled By Murder

CINCINNATI (AP)—Three weeks ago Mrs. Audry Pugh, wife of a Cincinnati printing executive, was found stabbed to death in her home in a fashionable Hyde Park neighborhood.

Since then, police have run down scores of clues and questioned numerous possible suspects —without getting a solid lead. City Safety Director Orris Hamilton now calls it "the most baffling murder in Cincinnati's history, bar none."

The safety director went even further and called it "the nearest to a perfect crime."

"But that doesn't mean we are giving up," he said. "We're working that much harder."

"Ellery Queen and Mary Roberts Rinehart together couldn't have written a greater mystery than this one," Hamilton continued.

Mrs. Pugh's husband, William W. Pugh, found his wife's body sprawled in a hallway of their home when he returned from his office on April 11. She had suffered multiple stab wounds. She was clad only in a robe and pajama tops.

Mrs. Pugh had complained that day of not feeling well and apparently had remained in bed during the day.

Both Pugh and his wife were members of prominent Cincinnati families. Relatives and friends said she was a devout church worker and police have been unable to turn up any evidence of enemies.

Whistling Labeled Thumbsucking Cure

BOSTON (AP) — Prof. Clifford L. Whitman of Columbia University offered a simple solution for child thumb suckers in a talk to the American Assn. of Orthodontists. He said if a child is taught to whistle it would take the thumb from his mouth and thus allow his teeth to develop normally.

Judge Condemns Playground Grab

NEW YORK (AP)—A judge holds that not an inch of Central Park is expendable, particularly not for parking lot for "a bucolic nightclub."

State Supreme Court Justice Samuel H. Hofstadter brought joy to a group of embattled mothers by issuing a temporary injunction blocking construction of the lot on a half-acre playground area.

Park Commissioner Robert Moses has contended the parking space is needed for customers of the Tavern-on-the-Green, a city owned cafe in the park.

Hofstadter said it was a "grave question" whether a children's play area "may be sacrificed to a contemplated use of compounded dubiety, i. e., more parking space for an enlarged cocktail lounge for a plush restaurant."

Let's All Go Shopping!

★ ★

By MRS. LEORA SAYRE
Home Demonstration Agent
Farm Extension Service

How does one go shopping for a loaf of bread, directly or indirectly?

Bread does rank high among the outstanding staple foods in the diets of people everywhere. The trend toward bread making in commercial bakeries rather than in the home has brought to the average homemaker a much wider choice in breadstuffs than was formerly available.

Even the most capable home bakers in grandmothers's day would have had a very difficult time providing her family with as much as ten different kinds of bread at any one meal. Yet, today, foodshoppers may find that many on the shelves of her local grocery. There is white, whole wheat, cracked wheat, milk, raisin, rye, cinnamon, pumpernickel, potato and "diet" breads.

The choice depends mainly upon the likes of the different members of the family. It is not enough anymore to say simply "bread". One may specify a variety to suit his taste, and have it in much less time than it once took the housewife to get out the ingredients to make a batch.

* * *

BREAD EATING habits have changed, too. However, we still too often hear the comment, "I don't eat bread because it's fattening." Consumer specialists remind us that the total daily food intake is the factor that determines whether or not one gains weight, and not the amount of any one given food.

Bread need not add pounds. One slice of bread provides about 65 calories. If one were to omit the high calorie jams, honey or other "toppings" that usually associate with a slice of bread, it would not add enough calories to the diet to be a matter of great concern.

When shopping for bread, read the label for the list of ingredients, type of bread, weight of the loaf and the price. Strange as it may sound, sometimes small loaves may weigh as much as large ones.

Bread, the "staff of life", makes a valuable contribution to the family's diet in the form of proteins, iron and B-vitamins. Enrichment of bread is compulsory in Ohio and means that the nutritive value of all breads approaches that of whole wheat bread.

The health benefits from enrichment far outweigh the cost involved. One penny will cover the cost of enriching 25 one-pound loaves.

* * *

THE MARKETING and processing costs of a loaf of bread include many services—some of them formerly done by the homemaker in the days of homemade bread.

The wheat from the farm has to be assembled and transported to the miller who makes it into flour. The baker buys the bread, wraps it in a protective covering and delivers it to your door or to a retail store.

Modern methods enables one to have this fresh bread on the table the same day that it is baked.

The best method to prevent bread from becoming stale is to store it in the home freezer or in the freezing compartment of the refrigerator. The next best place to store it is in a well-ventilated bread box in a warm part of the kitchen. Bread stored in the refrigerator loses its fresh flavor more rapidly than if stored at room temperature or in the freezer.

The "squeeze test" is a poor measure of freshness of bread. A compact loaf may be very fresh.

So let's fully recognize and knowingly consume our daily bread and forgive any false thought of its just "fattening" value. Bread is a good tonic to help father bring home the bacon.

1,100 Men Idled By Wildcat Strike

CANTON (AP)—A wildcat strike at the East Sparta plant of the United States Ceramics Tile Co. yesterday idled 1,100 workers.

The walkout came 34 hours after the U.S. Ceramics and Glass Workers Union accepted a new contract containing a 9 cent an hour package increase. The strike was viewed as an expression of dissatisfaction with the settlement. Wage scales were not available.

Ed McVann, local union president, said he was trying to end the walkout.

American Radiator Planning Long Anti-Trust Law Battle

NEW YORK (AP)—American Radiator & Standard Sanitary Corp. will vigorously defend its merger with Mullins Manufacturing Corp. against an anti-trust suit brought by the Department of Justice, Joseph A. Grazier, president, told the annual meeting today.

Grazier declared the company was confident of winning its fight but he said he regretted 'the waste of time, effort and money."

American-Standard, even before its merger last Jan. 30 with Mullins, producer of Youngstown Steel Kitchens, was the nation's biggest manufacturer of plumbing and heating equipment.

Grazier reported American-Standard had first-quarter sales of $96,132,414 compared with $91,082,517 for the year ago period which included Mullins sales.

First - quarter net income amounted to $4,431,150, equivalent to 37 cents a share compared with $4,545,557 or 38 cents a share in the first three months of 1955. Grazier said the slight decline in earnings stemmed from slightly higher operating expenses.

'Prospects for the balance of this year are very favorable," Grazier said. 'At the close of the first quarter, our backlog of orders was substantially higher than a year ago. We expect contract awards for both residential and non-residential building to remain strong and provide a solid base for a high volume of construction activity."

A suit against the merger of American-Standard with Mullins was filed last month by the anti-trust division of the Department of Justice.

Grazier said the company and outside experts had studied the proposed merger with Mullins very crefully before directors decided it violated no anti-trust laws.

"As is common in litigation of this type," Grazier said, 'this suit is apt to be dragged out for years. Our concern is not really at the outcome, but at the waste in time, effort and money which should be put to more constructive uses."

Military Reserve Program Working

WASHINGTON (AP) — The armed services have told Congress that its program to build up a trained 2,900,000-man reserve in five years is picking up speed.

Chairman Brooks (D-La) of a House Armed Services subcommittee which called for the progress reports commented "we have reason to be proud of the progress which has been made."

He said he is especially pleased with a pickup in enlistments under a plan inaugurated last October allowing youths to sign up for six months active duty followed by 7½ years in an actively drilling reserve unit.

Martha Raye Quips About 2 Lawsuits

WESTPORT, Conn. (AP)—Comedienne Martha Raye, being sued by the wife of a 27-year-old Westport policeman for stealing his love and threatened with divorce by her fifth husband, quipped yesterday: "Start the month of May by suing Martha Raye."

On the $50,000 love suit by Mrs. Robert O'Shea, the 39-year - old Miss Raye commented:

"I don't know whether to be flattered or not. A beautiful young, 20-year-old girl accused me of stealing her husband. All I did was hire four bodyguards to protect my life when it was threatened and he was one of them."

Sokolsky's

These Days

(Continued from Page Six)

The temptations in such positions are greater than they used to be before espionage became an accepted process of diplomacy. But if one lives in a manner that does not lay him open to blackmail, it is not likely that the spies will get anything on him. The homosexual is always open to blackmail and has no place in government service.

Thus far, most of those in our Foreign Service or in the British, who got into trouble were homosexuals who were therefore subject to blackmail and blabbermouths who had to talk to prove their importance. Most of them, I am told, were fired, although I should imagine that some are still around because it is impossible to get rid of those who are protested by politicians or powerful friends until they fall flat on their faces with a crash. Even so, Guy Burgess would get banged up in a fight with his gentlemen friends and nothing happened to him until he escaped to Russia and his affairs became public property.

On the whole, the career people in our Foreign Service are now of a strictly professional type. It can remain that way only if the personnel is closely watched and I would say that the exposures by Congressional committees did a lot of good as the figures of recruitments show. It was the expansion of the department for war purposes that brought in most of the rot.

Ex-WAC Sergeant Says Her Mate Jealous Of Rank

CHICAGO (AP)—The difference in their ranks rankled her Air Force husband, said an ex-WAC sergeant Wednesday, in winning a divorce on grounds of desertion.

Mrs. June Fishbein, 27, said her husband James, 24, deserted her because he claimed she was always "pulling rank" and running their house "like the Army."

When they wed in Japan Oct. 28, 1954, James was a private and she was a sergeant, Mrs. Fishbein told Judge Harry G. Hershenson in Superior Court.

He was so ashamed of his lower rank, she said, that he refused to go on a honeymoon with her. He left her Dec. 2, 1954, she said.

Fishbein now is a corporal stationed at Tandayll Air Base, Florida.

Mrs. Fishbein said she was discharged from the WAC shortly before birth of their daughter, Casey Elizabeth.

Fishbein's father, Harry, an East St. Louis, Ill., attorney represented him in court. The judge directed that Fishbein support the child.

Weekly Food Review

By THE ASSOCIATED PRESS

Food shoppers in many areas this weekend will find higher price tags on a number of meats.

Meat prices, although still below their levels of a year ago, generally moved up again this week. In recent weeks lamb has made substantial price gains and is now close to last year's figures.

Supplies of pork on wholesale markets were plentiful this week, but prices held firm after a two-week rise.

A variety of beef cuts are the most generally featured weekend specials across the country even though those sale prices did increase slightly.

Eggs are cheaper in many sections. Chickens and turkeys were featured specials ni some areas while prices went up in others, apparently reflecting local supply conditions.

The best buys in vegetables for most parts of the country are spinach and cabbgae. Other good buys are potatoes, both old crop and new; peppers, endive, escarole, onions, celery and carrots, lettuce and sweet potatoes.

Let's All Go Shopping!

How does one go shopping for a loaf of bread, directly or indirectly?

Bread does rank high among the outstanding staple foods in the diets of people everywhere. The trend toward bread making in commercial bakeries rather than in the home has brought to the average homemaker a much wider choice in breadstuffs than was formerly available.

Even the most capable home bakers in grandmothers's day would have had a very difficult time providing her family with as much as ten different kinds of bread at any one meal. Yet, today, foodshoppers may find that many on the shelves of her local grocery. There is white, whole wheat, cracked wheat, milk, raisin, rye, cinnamon, pumpernickel, potato and "diet" breads.

The choice depends mainly upon the likes of the different members of the family. It is not enough anymore to say simply "bread". One may specify a variety to suit his taste, and have it in much less time than it once took the housewife to get out the ingredients to make a batch.

* * *

BREAD EATING habits have changed, too. However, we still too often hear the comment, "I don't eat bread because it's fattening." Consumer specialists remind us that the total daily food intake is the factor that determines whether or not one gains weight, and not the amount of any one given food.

Bread need not add pounds. One slice of bread provides about 65 calories. If one were to omit the high calorie jams, honey or other "toppings" that usually associate with a slice of bread, it would not add enough calories to the diet to be a matter of great concern.

When shopping for bread, read the label for the list of ingredients, type of bread, weight of the loaf and the price. Strange as it may sound, sometimes small loaves may weigh as much as large ones.

Bread, the "staff of life", makes a valuable contribution to the family's diet in the form of proteins, iron and B-vitamins. Enrichment of bread is compulsory in Ohio and means that the nutritive value of all breads approaches that of whole wheat bread.

The health benefits from enrichment far outweigh the cost involved. One penny will cover the cost of enriching 25 one-pound loaves.

* * *

THE MARKETING and processing costs of a loaf of bread include many services—some of them formerly done by the homemaker in the days of homemade bread.

The wheat from the farm has to be assembled and transported to the miller who makes it into flour. The baker buys the bread, wraps it in a protective covering and delivers it to your door or to a retail store.

Modern methods enables one to have this fresh bread on the table the same day that it is baked.

The best method to prevent bread from becoming stale is to store it in the home freezer or in the freezing compartment of the refrigerator. The next best place to store it is in a well-ventilated bread box in a warm part of the kitchen. Bread stored in the refrigerator loses its fresh flavor more rapidly than if stored at room temperature or in the freezer.

The "squeeze test" is a poor measure of freshness of bread. A compact loaf may be very fresh.

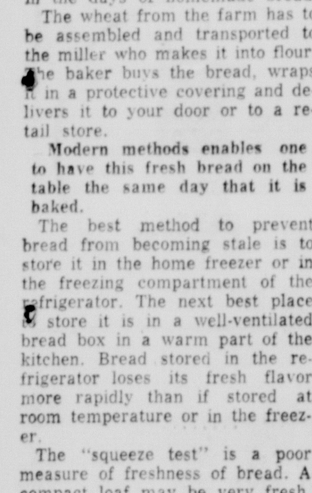
So let's fully recognize and knowingly consume our daily bread and forgive any false thought of its just "fattening" value. Bread is a good tonic to help father bring home the bacon.

1,100 Men Idled By Wildcat Strike

CANTON (AP)—A wildcat strike at the East Sparta plant of the United States Ceramics Tile Co. yesterday idled 1,100 workers.

The walkout came 34 hours after the U.S. Ceramics and Glass Workers Union accepted a new contract containing a 9 cent an hour package increase. The strike was viewed as an expression of dissatisfaction with the settlement. Wage scales were not available.

Ed McVann, local union president, said he was trying to end the walkout.



American Radiator Planning Long Anti-Trust Law Battle

NEW YORK (AP)—American Radiator & Standard Sanitary Corp. will vigorously defend its merger with Mullins Manufacturing Corp. against an anti-trust suit brought by the Department of Justice, Joseph A. Grazier, president, told the annual meeting today.

Grazier declared the company was confident of winning its fight but he said he regretted 'the waste of time, effort and money."

American-Standard, even before its merger last Jan. 30 with Mullins, producer of Youngstown Steel Kitchens, was the nation's biggest manufacturer of plumbing and heating equipment.

Grazier reported American-Standard had first-quarter sales of $96,132,414 compared with $91,082,517 for the year ago period which included Mullins sales.

First - quarter net income amounted to $4,431,150, equivalent to 37 cents a share compared with $4,545,557 or 38 cents a share in the first three months of 1955. Grazier said the slight decline in earnings stemmed from slightly higher operating expenses.

'Prospects for the balance of this year are very favorable," Grazier said. 'At the close of the first quarter, our backlog of orders was substantially higher than a year ago. We expect contract awards for both residential and non-residential building to remain strong and provide a solid base for a high volume of construction activity."

A suit against the merger of American-Standard with Mullins was filed last month by the anti-trust division of the Department of Justice.

Grazier said the company and outside experts had studied the proposed merger with Mullins very crefully before directors decided it violated no anti-trust laws.

"As is common in litigation of this type," Grazier said, 'this suit is apt to be dragged out for years. Our concern is not really at the outcome, but at the waste in time, effort and money which should be put to more constructive uses."

Military Reserve Program Working

WASHINGTON (AP) — The armed services have told Congress that its program to build up a trained 2,900,000-man reserve in five years is picking up speed.

Chairman Brooks (D-La) of a House Armed Services subcommittee which called for the progress reports commented "we have reason to be proud of the progress which has been made."

He said he is especially pleased with a pickup in enlistments under a plan inaugurated last October allowing youths to sign up for six months active duty followed by 7½ years in an actively drilling reserve unit.

Martha Raye Quips About 2 Lawsuits

WESTPORT, Conn. (AP)—Comedienne Martha Raye, being sued by the wife of a 27-year-old Westport policeman for stealing his love and threatened with divorce by her fifth husband, quipped yesterday: "Start the month of May by suing Martha Raye."

On the $50,000 love suit by Mrs. Robert O'Shea, the 39-year - old Miss Raye commented:

"I don't know whether to be flattered or not. A beautiful young, 20-year-old girl accused me of stealing her husband. All I did was hire four bodyguards to protect my life when it was threatened and he was one of them."

Sokolsky's

These Days

(Continued from Page Six)

The temptations in such positions are greater than they used to be before espionage became an accepted process of diplomacy. But if one lives in a manner that does not lay him open to blackmail, it is not likely that the spies will get anything on him. The homosexual is always open to blackmail and has no place in government service.

Thus far, most of those in our Foreign Service or in the British, who got into trouble were homosexuals who were therefore subject to blackmail and blabbermouths who had to talk to prove their importance. Most of them, I am told, were fired, although I should imagine that some are still around because it is impossible to get rid of those who are protested by politicians or powerful friends until they fall flat on their faces with a crash. Even so, Guy Burgess would get banged up in a fight with his gentlemen friends and nothing happened to him until he escaped to Russia and his affairs became public property.

On the whole, the career people in our Foreign Service are now of a strictly professional type. It can remain that way only if the personnel is closely watched and I would say that the exposures by Congressional committees did a lot of good as the figures of recruitments show. It was the expansion of the department for war purposes that brought in most of the rot.

Ex-WAC Sergeant Says Her Mate Jealous Of Rank

CHICAGO (AP)—The difference in their ranks rankled her Air Force husband, said an ex-WAC sergeant Wednesday, in winning a divorce on grounds of desertion.

Mrs. June Fishbein, 27, said her husband James, 24, deserted her because he claimed she was always "pulling rank" and running their house "like the Army."

When they wed in Japan Oct. 28, 1954, James was a private and she was a sergeant, Mrs. Fishbein told Judge Harry G. Hershenson in Superior Court.

He was so ashamed of his lower rank, she said, that he refused to go on a honeymoon with her. He left her Dec. 2, 1954, she said.

Fishbein now is a corporal stationed at Tandayll Air Base, Florida.

Mrs. Fishbein said she was discharged from the WAC shortly before birth of their daughter, Casey Elizabeth.

Fishbein's father, Harry, an East St. Louis, Ill., attorney represented him in court. The judge directed that Fishbein support the child.

Weekly Food Review

By THE ASSOCIATED PRESS

Food shoppers in many areas this weekend will find higher price tags on a number of meats.

Meat prices, although still below their levels of a year ago, generally moved up again this week. In recent weeks lamb has made substantial price gains and is now close to last year's figures.

Supplies of pork on wholesale markets were plentiful this week, but prices held firm after a two-week rise.

A variety of beef cuts are the most generally featured weekend specials across the country even though those sale prices did increase slightly.

Eggs are cheaper in many sections. Chickens and turkeys were featured specials ni some areas while prices went up in others, apparently reflecting local supply conditions.

The best buys in vegetables for most parts of the country are spinach and cabbgae. Other good buys are potatoes, both old crop and new; peppers, endive, escarole, onions, celery and carrots, lettuce and sweet potatoes.

U.S. Savings Bonds Facing Competition

Series E Paper Sees Other Investments Fluctuate Interest

By SAM DAWSON

NEW YORK (AP) — U. S. savings bonds face new competition as series E starts its 16th year.

Thrift is commanding higher returns these days. The savings banks and the commercial banks are raising the interest rates they pay the savers. The yields on corporate bonds and on nontaxable state and municipal bonds have been rising. Even worse, some other forms of U. S. Treasury bonds are now yielding more than do the nonmarketable savings bonds.

Series E, which started life May 1, 1941, as a form of the nation's financial preparation for defense, has had its ups and downs in popularity.

In the early months of the bull market in stocks, investors tended to shun the plodding E bonds, seeking the higher returns they could foresee from buying common stocks. In recent months, as stock prices climbed faster than dividends, and the yields on stocks sank closer to the yield on corporate and government bonds, the E bond bounced back into favor.

It still yields almost as much as many of the highly priced blue chip stocks. But the yield in savings bonds doesn't change. It comes to 3 per cent if they are held 9 years and 8 months, and 3 per cent thereafter up to 10 years of extended life.

But now, with other bond yields climbing, some of the marketable varieties of U. S. Treasury securities yield more than 3 per cent, and need be held only a little more than two years, compared to the much longer time money must be tied up in a saving bond before it pays 3 per cent.

Some investors have been tempted to switch affections. The Treasury minimizes this, feeling that the E bond will have a fairly steady appeal over the years.

Some eight million employes of 42,000 business firms buy them on a payroll savings plan, accounting for about 160 million dollars a month. Thes payroll programs change little from month to month.

In all some 40 million persons own E bonds today with a total value of 38 billion dollars. Some who bought their first bonds in 1941 are still holding on to them. Since they first started coming due in May 1951, about 20 billion dollars of series E bonds have matured, but only six billion dollars worth have been cashed in, the rest being retained and still drawing interest.

Whooping Crane Lays Eggs In Zoo

NEW ORLEANS (AP)—Josephine made big news in the zoological world Saturday when she laid an egg.

Supt. George Douglass of Audubon Park strutted like a new papa and told newsmen the event demonstrated that whooping cranes can breed in captivity.

Josephine and Crip, her mate, are two of the 28 whooping cranes remaining in the world, Douglass said, and the first to produce an egg in captivity.

Josephine added egg No. 2 to the nest Wednesday while a photographer was waiting around for a picture of the first.

Old Phone Wire Posing Problem

BREVARD, N.C. (AP)—Rangers at the Pisgah National Forest have a right lengthy problem.

They have 300 to 400 miles of No. 9 telephone wire they want to get rid of. And it's free for the taking. There's just one restriction—you can't sell it.

The wire is a casualty of progress. It became useless when radion communication was installed some time ago, but the wire stayed up because the Forest Service had no funds earmarked for the job of removing it.

Wrong Number Proves Of Value

WASHINGTON, Ill. (AP) — The wrong number that City Councilman Pat Brill dialed turned out to be the right one.

Brill thought that bids for the removal of several dead Elms were too high.

He dialed what he thought was a Spring Bay, Ill., firm for its bid.

He struck a wrong digit and found he was talking to a Peoria firm specializing in tree removals. That firm's bid of $320 for the work was accepted. Others ranged up to $625.

Science Says Lamprey's Own Electricity May Kill Him

OTTAWA (AP) — Science has come up with a discovery about the parasitic sea lamprey that may help to kill him—the eel-like fish destroyer emits a pulsating electrical discharge from the area of his head.

Implications of this discovery by a McMaster University professor now are under study. Fisheries scientists hope it will open up a more positive approach to the problem of eradicating the lamprey from the Great Lakes, where it has wiped out or damaged much of the lake trout and white fish population.

Dr. J. L. Kask, chairman of Canada's Fisheries Research Board, said the newly discovered electrical discharge mechanism is unique in living organisms. Scientists hope soon to devise methods to turn the lamprey's electrical pulsations against itself. The creature clings to other fish with its sucker-like mouth, damaging them beyond commercial value and eventually killing them.

Discovery of the lamprey's unique characteristic was made by Dr. H. Kleerekoper, professor of zoology at McMaster University, Hamilton, Ont., whose work includes research into the effects of sonic and ultra-sonic vibrations on fish. He is currently supervising a research project being carried out by the Fisheries Research Board.

The lamprey's electrical pulsations are very low, measuring from 200 to 300 millionths of a volt at a distance of about four-fifths of an inch from the animal's head. The pulsations recur rythmically every four-fifths of a second and the duration of each is one twenty-thousandth of a second.

Researchers are trying to determine how the lamprey uses this power. They believe it is possible the lamprey can perceive changes in its electrical field caused by the presence of fish or other objects and in this way locates its prey.

Intensified efforts to destroy the lamprey have been under way for some time, using sonic vibrations, poisons and other methods. The campaign is being coordinated through the new Canada-United States Great Lakes Fisheries Commission, established to protect and sustain the Great Lakes fishery. Scientists believe discovery of the lamprey's electrical potential will give them a new weapon.

The invention of table tennis is credited to James Gibbs of England, who brought out the game between 1880 and 1890.

Benching Klu Puts New Fire Under Redlegs

Cincinnati On Diet Of Home Runs, Wins With Big Boy Idled

By THE ASSOCIATED PRESS

Benching the team's star slugger may not sound like good managerial strategy, but it's worked wonders for Birdie Tebbetts of the Cincinnati Redlegs.

Ever since big Ted Kluszewski was benched, the Redlegs have been on a diet of home runs and victories, with five roundtrippers coming Wednesday night as they blitzed Brooklyn's faltering Dodgers 10-6 for their sixth successive victory. The skein has lifted the club from the basement to a 7-5 mark with the leaders of the scrambled National League race.

Wally Post, the major league leader with 8; George Crowe, big Klu's "temporary" replacement; Ray Jablonski and Gus Bell were the home run heroes Wednesday night as the Redlegs ran their record to 17 homers in their last six games.

The modern Murderers' Row stole the headlines from the New York Giants' 6-5 victory over the Chicago Cubs in 17 innings, on Daryl Spencer's sacrifice fly, and a 10-9 victory over Pittsburgh that sent the St. Louis Cardinals to the top of the National League. Cincinnati and Milwaukee trail by a half-game and the Dodgers and Giants by a full game. Philadelphia and Milwaukee were not scheduled.

In contrast, pitching was the password in the American League with a pair of youthful right-handers, Detroit's Frank Lary and Tom Brewer of Boston supplying all the answers.

Lary knocked the New York Yankees out of first place and blanked the New Yorkers until the ninth inning, coasting to an 8-1 victory behind a 15-hit attack.

Brewer went Lary one better as he shut out Kansas City in hanging up a three-hit, 2-0 victory.

The Chicago White Sox, whose 5-2 record gives a better percentage (.714) than the Yanks .692, were rained out at Baltimore and Cleveland was washed out in Washington.

The Dodgers did some home run blasting Wednesday night, but by the time Duke Snider, Roy Campanella and Sandy Amoros got into the act it was far too late. All three connected in the eighth inning, but Cincinnati was breezing on a 9-2 lead by that time.

Joe Black, Brooklyn's 1952 ace, was the winning pitcher against his old mates, relieving Brooks Lawrence in the second inning. He had to depart himself in the eighth, Hershell Freeman coming in to protect the victory.

Kluszewski, benched last Friday for being overweight, suffered a hip injury early in spring training. He led the National League in home runs and runs-batted-in in 1954.

TV Schedule Loaded With Sports Events

This weekend's television schedule is loaded with sports events.

Friday at 8 p. m. on Channel 4, television viewers will be able to see the game between the power-laden Cincinnati Redlegs and the upstart Pittsburgh Pirates. These two teams can also be seen Saturday at 1:30 p. m. on the same station.

Another baseball game is on tap for Saturday also. Starting at approximately 1 p. m. on Channel 10, viewers can watch the bombarding Boston Red Sox tangle with the determined Detroit Tigers.

Two other top sports events are scheduled for Channel 10. At 4:15 p. m., the famed Kentucky Derby will be run. TV viewers will be able to see some of the "color" of the pre-race ceremonies at the Louisville, Ky. track.

At 4:45 p. m., also on Channel 10, sports fans will get a chance to see fleet John Landy, the sensational mile runner. Landy holds the world record for the mile, having run the distance under four minutes on several occasions.

Horse Ben Jones Rated As Longshot

LOUISVILLE, Ky. (AP)—Ben A. Jones, the horse not the trainer, is given only an outside chance to win Saturday's $125,000 added Kentucky Derby.

The son of Faultless, owned by Dr. J. J. Gregory and H. D. Maggio of Chicago, is quartered in stall protected by a screen fence. That's the way Ben A. Jones, the trainer, used to keep spectators away from such stars of his as Citation and Whirlaway.

No Rain Predicted For Saturday At Pickaway County Track Meet

The weatherman apparently will cooperate with the Pickaway County track meet. The annual event is scheduled for Saturday at the Pickaway County Fairgrounds.

No rain is predicted for the day, which will see junior high events staged in the morning and senior high events in the afternoon.

Saltcreek Township is the defending champion. The Warriors have won the competition for the last two years in a row.

John McPherson will handle the junior high events. Walter C. Haney is in charge of the senior high competition.

* * *

HERE IS the tentative time schedule:

Junior High

9:30—60-yard dash, pole vault and baseball throw;
10:00—60-yard low hurdles and shot put;
10:15—75-yard dash, high jump and broad jump;
10:30—finals of 440-yard relay;
10:45—240-yard shuttle relay;
11:00—finals of 60-yard dash.
11:15—220-yard dash;
11:30—finals of 75-yard dash;
11:45—finals of 60-yard hurdles;
12:10—880-yard relay.

Senior High

1:00—three heats of 100-yard dash, discus and pole vault;
1:15—three heats of girls' 40-yard dash;
1:30—mile run;
1:45—three heats of girls' 60-yard dash;
2:00—finals of 100-yard dash;
2:15—440-yard dash;
2:30—finals of girls' 40-yard dash, girls broad jump and boys' shot put and high jump;
2:35—two heats of half mile relay;
2:50—two heats of girls' 220-yard relay;
3:05—half mile run;
3:15—three heats of girls' 75-yard dash;
3:35—four heats of 180-yard low hurdles and boys' broad jump;
3:55—finals of girls' 60-yard dash;
4:00—three heats of 220-yard dash;
4:15—girls' baseball throw;
4:20—finals of 220-yard dash;
4:30—finals of girls' 75-yard dash;
4:40—mile relay.

Slow Track Seen For Annual Derby

LOUISVILLE, Ky. (AP)—A slowly run Kentucky Derby Saturday was a possibility today as the weatherman threatened to confuse even more a race in which every top contender is a come-from-behind performer and an early speed horse is hard to find.

The Churchill Downs' racing strip was still sloppy this morning from yesterday's intermittent rains. The weatherman forecast more of the same tonight.

At least seventeen 3-year-olds were expected to be entered for the 82nd running of the mile-and-a-quarter classic. That would mean a recrod-shattering purse of $167,400 with a net of $123,300, also a new high, going to the winner.

Giant Pilot Uses Record 25 Players

CHICAGO (AP)—Bill Rigney of the New York Giants is only a rookie major league manager but he has already outdone his illustrious predecessor Leo Durocher in the art of juggling players.

Rigney masterminded the New York Giants to a 6-5 victory over the Chicago Cubs in 17 innings yesterday by using a record 25 players, a major league record. The Cubs tossed in 23 to set a total record of 48 players, wiping out the old big league mark of 42.

Rigney, who called it a "big" victory, used all but two players, Jim Hearn and Ramon Monzant.

"That's as far as I was going," Rigney said. "Hearn pitched Tuesday and Monzant went all the way Sunday and his arm was stiff. I might have tossed Monzant in the outfield if something happened but not to pitch."

The marathon tied and neared other records. The Giants used eight pitchers to tie a National League record. Cub third baseman Don Hoak struck out six times tying the major league record, and the 5 hours 13 minutes it took to play fell only 6 minutes short of another mark.

Whitey Lockman of the Giants was shifted from left field to first base, went back to left field and finished at first while Monte Irvin of the Cubs entered the game in the seventh inning faced five different pitchers in five trips to the plate, and went hitless.

Kentucky has 13 state parks.

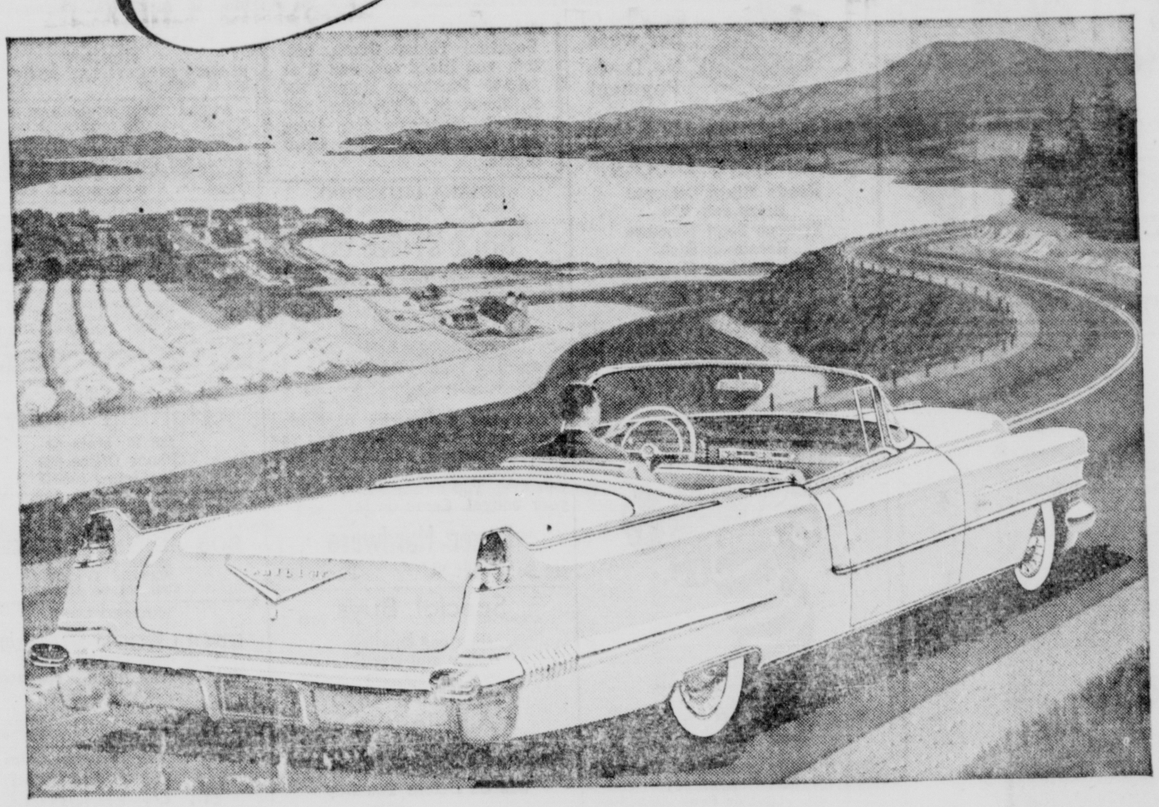
Cadillac



Spring Tonic That Lasts All Year!

His heart is light and his eyes are bright this morning—for he's greeting the spring at the wheel of a 1956 Cadillac.

Springtime comes and springtime goes, of course—but the thrill of his Cadillac will go on and on—month after month and year after year.

And what a thrill it is!

First, there's the sheer satisfaction of owning the "Standard of the World"—the undisputed leader in all that makes a motor car a joy to possess and a pleasure to utilize.

Then there's the thrill of *driving* it—with its smooth, powerful engine—its easy, positive steering—and its big, soft, authoritative brakes.

There is the contentment that comes with Cadillac's amazing *economy*.

The first cost of a Cadillac is surprisingly modest—upkeep, over the years, is unbelievably low—and operating costs rival those of any car.

And now, in all modesty, may we speak of one other satisfaction he enjoys as a Cadillac owner?

We believe that, throughout the years of his ownership, he will be as pleased with us, as his dealer, as he is with the wonderful car itself. It is our constant endeavor to treat our customers as they are entitled to be treated as owners of the world's most distinguished car.

Why not come in some day quite soon—take a demonstration drive at the wheel—and arrange to greet the spring in a Cadillac of your own?

We think you'll be surprised and delighted to learn how much your present car is worth in trade—and to find how quickly you can obtain delivery on the Cadillac of your choice.

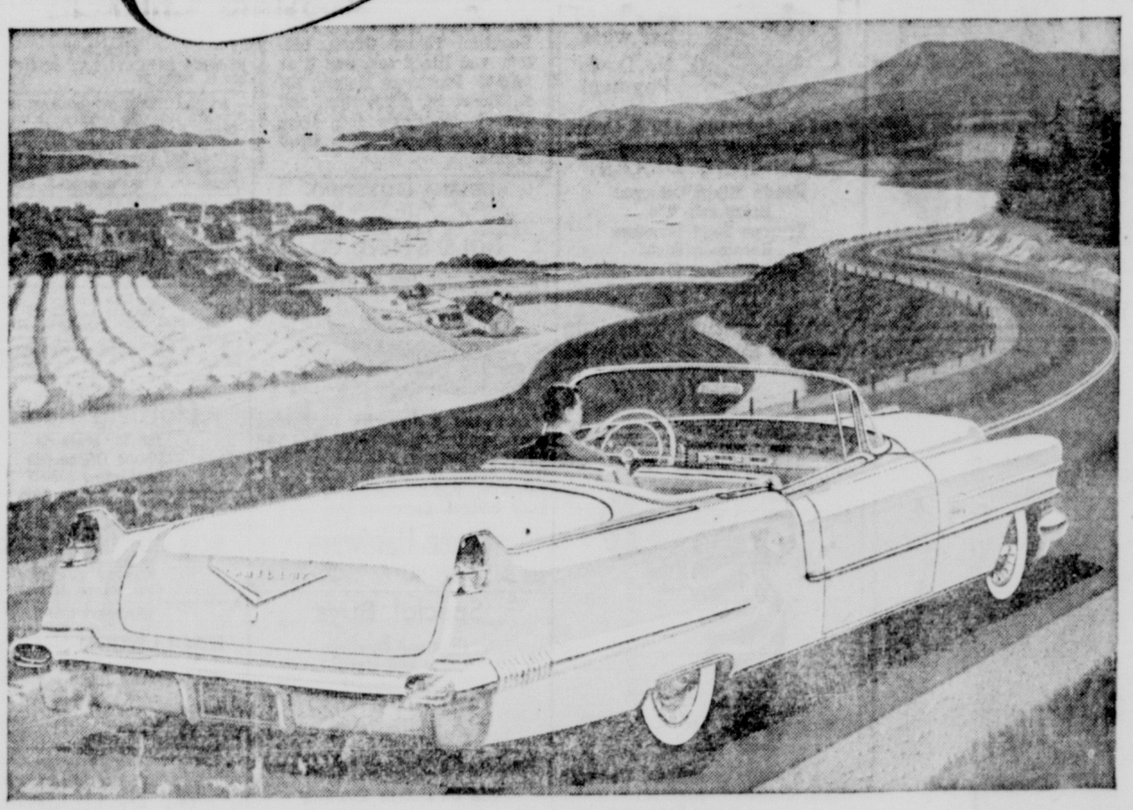
Cadillac



Spring Tonic That Lasts All Year!

His heart is light and his eyes are bright this morning—for he's greeting the spring at the wheel of a 1956 Cadillac.

Springtime comes and springtime goes, of course—but the thrill of his Cadillac will go on and on—month after month and year after year.

And what a thrill it is!

First, there's the sheer satisfaction of owning the "Standard of the World"—the undisputed leader in all that makes a motor car a joy to possess and a pleasure to utilize.

Then there's the thrill of *driving* it—with its smooth, powerful engine—its easy, positive steering—and its big, soft, authoritative brakes.

There is the contentment that comes with Cadillac's amazing *economy*.

The first cost of a Cadillac is surprisingly modest—upkeep, over the years, is unbelievably low—and operating costs rival those of any car.

And now, in all modesty, may we speak of one other satisfaction he enjoys as a Cadillac owner?

We believe that, throughout the years of his ownership, he will be as pleased with us, as his dealer, as he is with the wonderful car itself. It is our constant endeavor to treat our customers as they are entitled to be treated as owners of the world's most distinguished car.

Why not come in some day quite soon—take a demonstration drive at the wheel—and arrange to greet the spring in a Cadillac of your own?

We think you'll be surprised and delighted to learn how much your present car is worth in trade—and to find how quickly you can obtain delivery on the Cadillac of your choice.

Hank Sauer Hurt In Batting Mishap

ST. LOUIS (AP)—"The bat just slipped."

This was all an upset Walker Cooper could bring himself to say in explaining the freak accident which felled veteran Hank Sauer of the St. Louis Cardinals

The 37-year-old outfielder suffered a severe brain concussion, a 3-inch cut of the lip and his left ear was almost torn off by the flying bat which struck him as he stepped out of batting practice.

Dr. I. C. Middleman, club physician, took 12 stitches in Sauer's lip, about 50 on the ear.

Cleveland Reliefers Have Soft Jobs

BALTIMORE (AP) — So far this season being a Cleveland Indians' relief pitcher is a soft job.

Of the seven Cleveland relief hurlers, two haven't thrown a pitch yet for the record—rookie Buddy Daley and Jose Santiago. Three others, Art Houtteman, Sal Maglie and Don Mossi, have worked only one inning each. Cal McLish has thrown two innings in two games and Ray Narleski has been the relief "workhorse" by pitching in four games for a total of 6 2-3 innings.

Buckeye Grid Team Slated For Display

COLUMBUS (AP)—Ohio State puts on display Saturday the football talent it hopes will carry the Bucks to an unprecedented third straight Western Conference championship next fall.

At least 10,000 fans are expected to be on hand at 2 p. m. when Coach Woody Hayes sends his first and third stringers against the second and fourth teams in the annual clinic game.

The contest will be the feature attraction of the 25th annual Buckeye Gridiron Clinic, which will be a magnet for more than 800 of the state's scholastic mentors. The high school group will pick up tips on the split-T offense, and how to combat it, from three of the most successful exponents of that attack.

The two-day clinic 'teachers" will be Charles (Bud) Wilkinson of the powerful Oklahoma club, winner over Maryland in last New Year's Orange Bowl game; Bobby Dodd of Georgia Tech's Sugar Bowl champions, and Hayes and his staff.

Over the weekend, the mentors will elect Bill Kidd of New Philadelphia as president of the Ohio High School Football Coaches Assn., succeeding Wayne Stoddard of Akron North. The group also will receive bids on the 1957 north-south all-star game site. The 1956 game is scheduled Aug. 17 at Canton's Fawcett Stadium.

Ohio State will show pictures of the 1955 game with Michigan, and the "Ohio State Highlights" film Friday morning, and Dodd will handle the afternoon lectures on "game plans." Group drills and demonstrations by the Buckeyes will be held late in the day, and in the evening Big Ten Commissioner Kenneth L. (Tug) Wilson will address the annual banquet.

Saturday's clinic sessions will feature films of the Orange and Sugar Bowl contests, and Wilkinson's talks on football.

No-Hitter Proves Difficult Task

SPRINGFIELD, Mass. (AP) — Southpaw Ed Willey of American International College pitched a no-hit, no-run baseball game the hard way.

Willey beat Clark College of Worcester 10-0 yesterday after filling the bases with one out in the ninth inning. Then he turned in two strikeouts.

Hank Sauer Hurt In Batting Mishap

ST. LOUIS (AP)—"The bat just slipped."

This was all an upset Walker Cooper could bring himself to say in explaining the freak accident which felled veteran Hank Sauer of the St. Louis Cardinals

The 37-year-old outfielder suffered a severe brain concussion, a 3-inch cut of the lip and his left ear was almost torn off by the flying bat which struck him as he stepped out of batting practice.

Dr. I. C. Middleman, club physician, took 12 stitches in Sauer's lip, about 50 on the ear.

Cleveland Reliefers Have Soft Jobs

BALTIMORE (AP) — So far this season being a Cleveland Indians' relief pitcher is a soft job.

Of the seven Cleveland relief hurlers, two haven't thrown a pitch yet for the record—rookie Buddy Daley and Jose Santiago. Three others, Art Houtteman, Sal Maglie and Don Mossi, have worked only one inning each. Cal McLish has thrown two innings in two games and Ray Narleski has been the relief "workhorse" by pitching in four games for a total of 6 2-3 innings.

Buckeye Grid Team Slated For Display

COLUMBUS (AP)—Ohio State puts on display Saturday the football talent it hopes will carry the Bucks to an unprecedented third straight Western Conference championship next fall.

At least 10,000 fans are expected to be on hand at 2 p. m. when Coach Woody Hayes sends his first and third stringers against the second and fourth teams in the annual clinic game.

The contest will be the feature attraction of the 25th annual Buckeye Gridiron Clinic, which will be a magnet for more than 800 of the state's scholastic mentors. The high school group will pick up tips on the split-T offense, and how to combat it, from three of the most successful exponents of that attack.

The two-day clinic 'teachers" will be Charles (Bud) Wilkinson of the powerful Oklahoma club, winner over Maryland in last New Year's Orange Bowl game; Bobby Dodd of Georgia Tech's Sugar Bowl champions, and Hayes and his staff.

Over the weekend, the mentors will elect Bill Kidd of New Philadelphia as president of the Ohio High School Football Coaches Assn., succeeding Wayne Stoddard of Akron North. The group also will receive bids on the 1957 north-south all-star game site. The 1956 game is scheduled Aug. 17 at Canton's Fawcett Stadium.

Ohio State will show pictures of the 1955 game with Michigan, and the "Ohio State Highlights" film Friday morning, and Dodd will handle the afternoon lectures on "game plans." Group drills and demonstrations by the Buckeyes will be held late in the day, and in the evening Big Ten Commissioner Kenneth L. (Tug) Wilson will address the annual banquet.

Saturday's clinic sessions will feature films of the Orange and Sugar Bowl contests, and Wilkinson's talks on football.

No-Hitter Proves Difficult Task

SPRINGFIELD, Mass. (AP) — Southpaw Ed Willey of American International College pitched a no-hit, no-run baseball game the hard way.

Willey beat Clark College of Worcester 10-0 yesterday after filling the bases with one out in the ninth inning. Then he turned in two strikeouts.

Officers Say Law Enforcement Job Becoming More Hectic

More Speeding, 'Drunk' Driving Cases Noticed

Motorist Wonders Why Not Allowed To Exceed Limit

Law enforcement officers in Pickaway County have expressed the opinion that their job is becoming more hectic each day in many ways.

They have noted a trend towards higher rates of speed. There also seems to be a lack of respect for officers too, they add.

For example, one officer flagged down a speeder whose 1956 model car had been clocked at 90 miles per hour. While the officer was explaining the speed limit (50), the irate driver said, "Well, why do they build these cars so powerful if we're not supposed to go that fast?"

"Drunk" driving seems to be on the increase too, officers note. Ask an officer how difficult it is to try and stop one of these drivers and he will give you some hair-raising stories.

* * *

NOT LONG AGO, one officer trailed a "drunk" driver for six miles trying to get him stopped. The officer had his red signal light and siren on most of the way.

Another officer chased one "drunk" driver for a number of miles and could not get him stopped. The chase came to a halt only when a tire blew out on the "drunk" driver's car.

Speeders have come up with some of the most novel excuses for their misdeeds, according to the officers. One motorist, clocked at 90 going south on Route 23, and then 70 going up an unimproved country road, said he thought he was racing some "smart alec kid".

Officers note that much of the increased speed is taking place on the four-lane portion of Route 23 between Bell Siding and South Bloomfield. They point out that the proposal to up the speed limit to 60 "sure won't bother many drivers on that stretch of road—they go over that anyhow."

Many motorists seem iritated when accused of speeding. They claim that the road was "open" and there was not much traffic.

* * *

HOWEVER, officers explain that these conditions sometimes are the most hazardous. They point out how a driver will relax his vigil on an "open" road, while keeping a "heavy foot" on the accelerator.

"Most people cannot react as fast as they think they can," officers declare. "Lots of times they become hypnotized by the monotony of the road. Or they may be rounding a curve and not even realize it."

This last assertion is borne out by an annual accident report for Ohio which shows that of one-car mishaps nearly half take place on curves.

The report shows that more than 63 percent of all accidents happened during the daylight hours. Most of these take place between 4 and 5 p. m.

Hollywood Uses Business Head In Hiring Foreign Stars

HOLLYWOOD (AP) — Ever wonder why Hollywood hires actors from all over the world?

Partly, of course, it's because the movie business needs all kinds of bright talent, and talent knows no nationality.

But there's a cold business reason, too. Foreign receipts are getting to be close to half of the film industry's earnings. Hollywood can no longer rely on the United States alone for survival, as it did in World War II. So it pays to have casts with an international flavor.

Take "Raintree County," the costliest epic MGM has made here. It's strictly an American story — the Civil War years in an Indiana town. Added to the American cast is Nigel Patrick, one of the bright stars of te English stage and screen.

The casting of Patrick came partly by chance. The story goes that MGM boss Dore Schary was watching a movie on TV in his hotel suite in New York. The movie was "Pickwick Papers."

"Fortunately, I was playing a school teacher in that one," Patrick says, "and they were looking for a school teacher for 'Raintree County.' So they sent for me."

Patrick left the London company of "The Remarkable Mr. Pennypacker" and came to America for the first time. His accent was no hazard for the role, since the teacher's nationality is never defined in the novel or the script. Besides, his accent is slight — "that comes from having seen hundreds of American movies as a boy."

The actor is just getting used to this country, having seen little of it outside of Hollywood. He'll be getting a thorough view of America, since the picture will be locationing in four different states of the south.

English film making, he observed, seems to be on the upswing after one of its periodic depressions.

"The difference in the two industries, I suppose, is that when we have a panic over there, it's complete," he said. "They start closing down studios and everyone says, 'what are we going to do?' Over here, you seem to take your panics in stride. Or so it appears."

Well, yes and no. There was a time when TV was first beginning to throttle Hollywood and folks were ready to conver the studios into supermarkets and parking lots. Fortunately, those days are past.

60 Akron Bakers End Their Strike

AKRON (AP)—Sixty bakers yesterday ended a wildcat strike against the Taystee Bread Co., agreeing to submit their grievances to negotiators.

Aside from a shortage of buns, the firm was meeting its demands, a company spokesman said.

The bakers struck Tuesday over what they considered a speedup.

At the same time, negotiations were underway on a new contract for some 800 other bakers in Summit and Stark counties. The bakers are seeking wage boosts averaging around 32 cents hourly.

Tool Theft Seen Job Of Experts

CINCINNATI (AP) — Cutting tools worth $20,000 were reported stolen here last weekend and officials of the firm that supplied them think it may be the work of an organized gang.

The tools were taken from the Cincinnati Supply Co. whose manager, Charles Bird, said the thieves were "very selective."

Similar tool thefts have been reported since 1950 at three firms here, at the Dayton Tool & Supply Co., and at the McKee Tool & Supply Co. in Lima.

Communists Open Tunnel 'Snack Bar'

BERLIN (AP) — The Communists are opening a snack bar for visitors at the East Berlin end of a tunnel they accuse the U. S. Army of digging to wiretap Soviet communications.

The East German Interior Ministry also ordered a large tent put up to show visitors a special film on the tunnel. In addition, the ministry ordered a special booklet published about it.

The Soviet command on April 23 charged that "American military authorities" dug the 1,650-foot tunnel from the American sector into East Berlin and set up an elaborate wiretapping installation.

U.S. Water Supply Needs Said Great

WASHINGTON (AP) — The Commerce Department says the country needs to spend nearly $1 billion a year for the next 20 years on its public water supply systems to meet rapidly expanding needs and ease shortages.

The department said adequate supplies and reserve capacities "will be an important factor in our ability to support a national emergency."

A study of the water requirements by the department was based on an estimated population of 206,600,000 by 1975.

Pike County Poll Hours Lengthened

COLUMBUS (AP) — Secretary of State Ted W. Brown authorized the Pike County Election Board to remain open until 9 p. m. yesterday to give local residents away from home on election day an extra five hours to mark "absent voter" ballots.

The statutory deadline for receiving absent voter ballots was 4 p. m. throughout the state.

Two Republican members of the Pike County board voted to close tonight at the regular 4 p. m. time. Two Democrat members voted to keep the office open until 9 p. m. Brown voted with the Democrats to break the tie.

New Idle Pay Claims Increase

COLUMBUS (AP)—New claims increased and continuing claims for unemployment compensation dropped during the week ended April 28, the Ohio Bureau of Unemployment Compensation reports.

Claims of newly unemployed totaled 9,690 for the week compared with 8,059 for the week ended April 21, and continuing claims totaled 49,896 compared with 50,680 for the week ended April 21, the bureau said.

Ohio Highway Building Plan Hinged To Bill In Congress

COLUMBUS (AP)—Ohio Highway Director S. O. Linzell indicated that he still favors construction of a proposed new highway from Cincinnati to Conneaut as a toll road, if financially feasible.

The director told a news conference the final decision on a proposed north - south turnpike project depends on the outcome of Congress' interstate highway bill and two engineering reports which studied the feasibility of the road.

"If the Fallon Bill does not pass, our whole concept of our highway program will have to be revised," Linzell said.

He predicted if the bill passes in its present form and if it is not feasible to build the proposed Cincinnati-Conneaut turnpike as a revenue project "a large portion of our interstate money will have to be expended for roads duplicating the turnpike route."

Linzell said a freeway similar to the turnpike route would eat up about four years' federal funds for interstate highways.

* * *

"I DOUBT IF we'll be able to let all other interstate projects remain idle for four years," he commented.

The director indicated a great portion of Ohio's interstate allotment would be concentrated for the two ends of the projected north-south pike. He said the need was greatest in these areas.

"Our policy at present is that the Cincinnati - Conneaut road should be built as a toll road if it can be done at an acceptable rate of interest and financing. But engineering reports must be studied by the turnpike commission before a decision can be made."

Linzell said the two ends of the north-south pike to which he referred include a stretch between Conneaut and Cleveland and another between Cincinnati and Dayton. The J. E. Greiner Co., turnpike consultants, have submitted reports on these areas which are acceptable to the highway department since they meet the highest interstate standards.

Officers Say Law Enforcement Job Becoming More Hectic

More Speeding, 'Drunk' Driving Cases Noticed

Motorist Wonders Why Not Allowed To Exceed Limit

Law enforcement officers in Pickaway County have expressed the opinion that their job is becoming more hectic each day in many ways.

They have noted a trend towards higher rates of speed. There also seems to be a lack of respect for officers too, they add.

For example, one officer flagged down a speeder whose 1956 model car had been clocked at 90 miles per hour. While the officer was explaining the speed limit (50), the irate driver said, "Well, why do they build these cars so powerful if we're not supposed to go that fast?"

"Drunk" driving seems to be on the increase too, officers note. Ask an officer how difficult it is to try and stop one of these drivers and he will give you some hair-raising stories.

* * *

NOT LONG AGO, one officer trailed a "drunk" driver for six miles trying to get him stopped. The officer had his red signal light and siren on most of the way.

Another officer chased one "drunk" driver for a number of miles and could not get him stopped. The chase came to a halt only when a tire blew out on the "drunk" driver's car.

Speeders have come up with some of the most novel excuses for their misdeeds, according to the officers. One motorist, clocked at 90 going south on Route 23, and then 70 going up an unimproved country road, said he thought he was racing some "smart alec kid".

Officers note that much of the increased speed is taking place on the four-lane portion of Route 23 between Bell Siding and South Bloomfield. They point out that the proposal to up the speed limit to 60 "sure won't bother many drivers on that stretch of road—they go over that anyhow."

Many motorists seem iritated when accused of speeding. They claim that the road was "open" and there was not much traffic.

* * *

HOWEVER, officers explain that these conditions sometimes are the most hazardous. They point out how a driver will relax his vigil on an "open" road, while keeping a "heavy foot" on the accelerator.

"Most people cannot react as fast as they think they can," officers declare. "Lots of times they become hypnotized by the monotony of the road. Or they may be rounding a curve and not even realize it."

This last assertion is borne out by an annual accident report for Ohio which shows that of one-car mishaps nearly half take place on curves.

The report shows that more than 63 percent of all accidents happened during the daylight hours. Most of these take place between 4 and 5 p. m.

Hollywood Uses Business Head In Hiring Foreign Stars

HOLLYWOOD (AP) — Ever wonder why Hollywood hires actors from all over the world?

Partly, of course, it's because the movie business needs all kinds of bright talent, and talent knows no nationality.

But there's a cold business reason, too. Foreign receipts are getting to be close to half of the film industry's earnings. Hollywood can no longer rely on the United States alone for survival, as it did in World War II. So it pays to have casts with an international flavor.

Take "Raintree County," the costliest epic MGM has made here. It's strictly an American story — the Civil War years in an Indiana town. Added to the American cast is Nigel Patrick, one of the bright stars of te English stage and screen.

The casting of Patrick came partly by chance. The story goes that MGM boss Dore Schary was watching a movie on TV in his hotel suite in New York. The movie was "Pickwick Papers."

"Fortunately, I was playing a school teacher in that one," Patrick says, "and they were looking for a school teacher for 'Raintree County.' So they sent for me."

Patrick left the London company of "The Remarkable Mr. Pennypacker" and came to America for the first time. His accent was no hazard for the role, since the teacher's nationality is never defined in the novel or the script. Besides, his accent is slight — "that comes from having seen hundreds of American movies as a boy."

The actor is just getting used to this country, having seen little of it outside of Hollywood. He'll be getting a thorough view of America, since the picture will be locationing in four different states of the south.

English film making, he observed, seems to be on the upswing after one of its periodic depressions.

"The difference in the two industries, I suppose, is that when we have a panic over there, it's complete," he said. "They start closing down studios and everyone says, 'what are we going to do?' Over here, you seem to take your panics in stride. Or so it appears."

Well, yes and no. There was a time when TV was first beginning to throttle Hollywood and folks were ready to conver the studios into supermarkets and parking lots. Fortunately, those days are past.

60 Akron Bakers End Their Strike

AKRON (AP)—Sixty bakers yesterday ended a wildcat strike against the Taystee Bread Co., agreeing to submit their grievances to negotiators.

Aside from a shortage of buns, the firm was meeting its demands, a company spokesman said.

The bakers struck Tuesday over what they considered a speedup.

At the same time, negotiations were underway on a new contract for some 800 other bakers in Summit and Stark counties. The bakers are seeking wage boosts averaging around 32 cents hourly.

Tool Theft Seen Job Of Experts

CINCINNATI (AP) — Cutting tools worth $20,000 were reported stolen here last weekend and officials of the firm that supplied them think it may be the work of an organized gang.

The tools were taken from the Cincinnati Supply Co. whose manager, Charles Bird, said the thieves were "very selective."

Similar tool thefts have been reported since 1950 at three firms here, at the Dayton Tool & Supply Co., and at the McKee Tool & Supply Co. in Lima.

Communists Open Tunnel 'Snack Bar'

BERLIN (AP) — The Communists are opening a snack bar for visitors at the East Berlin end of a tunnel they accuse the U. S. Army of digging to wiretap Soviet communications.

The East German Interior Ministry also ordered a large tent put up to show visitors a special film on the tunnel. In addition, the ministry ordered a special booklet published about it.

The Soviet command on April 23 charged that "American military authorities" dug the 1,650-foot tunnel from the American sector into East Berlin and set up an elaborate wiretapping installation.

U.S. Water Supply Needs Said Great

WASHINGTON (AP) — The Commerce Department says the country needs to spend nearly $1 billion a year for the next 20 years on its public water supply systems to meet rapidly expanding needs and ease shortages.

The department said adequate supplies and reserve capacities "will be an important factor in our ability to support a national emergency."

A study of the water requirements by the department was based on an estimated population of 206,600,000 by 1975.

New Idle Pay Claims Increase

COLUMBUS (AP)—New claims increased and continuing claims for unemployment compensation dropped during the week ended April 28, the Ohio Bureau of Unemployment Compensation reports.

Claims of newly unemployed totaled 9,690 for the week compared with 8,059 for the week ended April 21, and continuing claims totaled 49,896 compared with 50,680 for the week ended April 21, the bureau said.

Pike County Poll Hours Lengthened

COLUMBUS (AP) — Secretary of State Ted W. Brown authorized the Pike County Election Board to remain open until 9 p. m. yesterday to give local residents away from home on election day an extra five hours to mark "absent voter" ballots.

The statutory deadline for receiving absent voter ballots was 4 p. m. throughout the state.

Two Republican members of the Pike County board voted to close tonight at the regular 4 p. m. time. Two Democrat members voted to keep the office open until 9 p. m. Brown voted with the Democrats to break the tie.

Ohio Highway Building Plan Hinged To Bill In Congress

COLUMBUS (AP)—Ohio Highway Director S. O. Linzell indicated that he still favors construction of a proposed new highway from Cincinnati to Conneaut as a toll road, if financially feasible.

The director told a news conference the final decision on a proposed north - south turnpike project depends on the outcome of Congress' interstate highway bill and two engineering reports which studied the feasibility of the road.

"If the Fallon Bill does not pass, our whole concept of our highway program will have to be revised," Linzell said.

He predicted if the bill passes in its present form and if it is not feasible to build the proposed Cincinnati-Conneaut turnpike as a revenue project "a large portion of our interstate money will have to be expended for roads duplicating the turnpike route."

Linzell said a freeway similar to the turnpike route would eat up about four years' federal funds for interstate highways.

* * *

"I DOUBT IF we'll be able to let all other interstate projects remain idle for four years," he commented.

The director indicated a great portion of Ohio's interstate allotment would be concentrated for the two ends of the projected north-south pike. He said the need was greatest in these areas.

"Our policy at present is that the Cincinnati - Conneaut road should be built as a toll road if it can be done at an acceptable rate of interest and financing. But engineering reports must be studied by the turnpike commission before a decision can be made."

Linzell said the two ends of the north-south pike to which he referred include a stretch between Conneaut and Cleveland and another between Cincinnati and Dayton. The J. E. Greiner Co., turnpike consultants, have submitted reports on these areas which are acceptable to the highway department since they meet the highest interstate standards.
